Charley Chaplin Will Not Be Sent Back To England

Deny Reports That Immigration Officers Plan To Deport Comedian

(International News Service)

WASHINGTON, Jan. 14.—Charley Chaplin, film comedian, will not be deported if his wife, Lita Grey, wins her divorce suit against him, Department of Labor officials said today. They denied reports from Los Angeles that immigration officials were watching the Chaplin case with a view of deporting him to England.

It was pointed out that in order to deport Chaplin, who is a British subject, it would be necessary for him to be convicted of a crime involving moral turpitude. The divorce case, being a civil action, would not afford grounds for deportation, despite the serious charges it contains, officials said.

Auto Plunges Over Steep Embankment; Crashes Into House

Enroute up grade on Florence avenue to his home about 9:55 o'clock Thursday night, George J. Forrest, 406 Florence avenue, well known resident of the city, just barely escaped death or serious injury, when the engine of his car went dead and the brakes failed to hold the machine.

As the brakes failed Mr. Forrest in this emergency, his machine, a sedan, started backward on the slippery roadway and backed down over the steep embankment at the side of Florence avenue, finally crashing into and through the side of the kitchen of the home of Mr. and Mrs. Pasquale DeLillo, 307 Union street.

Mrs. DeLillo and three children, Mary, aged 9, Tony, aged 8, and Ernest, aged 4, were seated about the kitchen table at the time but fortunately the machine was stopped before reaching them and they were uninjured. Mr. DeLillo was not home at the time.

The fact that Mr. Forrest went down over the embankment in the car and was still in it when it crashed into the side of the DeLillo home and escaped injury of any kind is considered quite remarkable. The automobile was badly damaged and was being removed this morning. The damage to the home was considerable.

The accident was reported to the police as soon as it occurred and Officers Steiner, Samuels, Dukes, James and Lockard were detailed on it, as the first reports received indicated that it was a rather serious accident and that there might be one or more persons injured.

Retail Grocers To Have Banquet

Three Hundred Will Gather Next Thursday Evening At Christian Church

With indications of an attendance of 300, a banquet will be held on next Thursday evening at 7:30 o'clock in the First Christian church, by the New Castle Retail Grocer's Association of New Castle.

B. F. Moorhead, of the J. J. Dean wholesale grocery, will preside as toastmaster of the evening, and two addresses of note will be made.

John D. Millar, of Altoona, Pa., father of the "Handy Service Stores" organizations, will be one of the speakers, while the other address of the evening will be made by William Smedley, secretary of the Retail Merchants of Pennsylvania, whose subject will be "The Grocer's Problems and Opportunities."

Charlie Chaplin Says He Intends To Fight Charges

Chaplin Not As Depressed As Reports From Chicago Seemed To Indicate

By DAVID P. SENTNER
International News Service Staff Correspondent

NEW YORK, Jan. 14.—Charlie Chaplin, the king of film comedy, arrived in New York on the Twentieth Century Limited today and told reporters that he would fight his wife's suit for a divorce "to the bitter end".

He said the action brought by Lita Grey Chaplin in Los Angeles was instigated by his wife's family.

"I'm going to fight this thing out", he asserted. "I'm going to fight for the custody of my two children".

Resents Action

Chaplin resented the bringing of the name of Edna Purviance, noted screen actress, into his domestic difficulties.

"Certainly she's on my payroll", Chaplin said. "She's on the payroll for $250 a week, but that was the stipulation in her original contract.

"There was absolutely no reason for dragging Miss Purviance's name into this."

Chaplin did not seem as depressed as reports from the West incidated he was in Chicago yesterday. He smiled as he dropped off the train to face a horde of reporters and a battery of cameras. He posed amiably for pictures.

A large crowd gathered near the train, having learned of Chaplin's arrival. Chaplin tried to make his way to a waiting automobile, but he was blocked by the reporters, whot shot questions at him.

In reply to one question Chaplin denied he is worth $16,000,000 or anything like that amount.

"Why", he declared, "I'm not worth one-half of six million dollars."

ROAD BOOSTERS MEET MONDAY

Will Continue Plans For New Bedford-Leesburg Improved Highway

For the purpose of solidifying the New Bedford-Leesburg road organization started in New Wilmington some weeks ago, Chairman George Young has called a meeting for Monday evening, Jan. 17, in the dining room of the First M. E. church. Councilmen of New Wilmington and the road supervisors of Pulaski, Wilmington and Washington townships will be present.

The organization plans to push the project of getting a concrete road built between the points mentioned, as it will provide an east-west road across the northern part of the county. The probabilities are that a bill will be drafted and presented to the present session of the General Assembly calling for the improvement

Borah Plan For Nicaragua Peace Fails To Enthuse

Borah Plan Would Have Election In Nicaragua Policed By Marines

ASKS ARBITRATION ON NEW LAND LAW

By GEORGE R. HOLMES
International News Service Staff Correspondent

WASHINGTON, Jan. 14. — Little enthusiasm was manifested today in official quarters for the peace plan put forward by Senator Wm. E. Borah in an effort to smooth away the administration's troublesome difficulties in Nicaragua and Mexico.

Borah suggested (1) That a new election be held in Nicaragua, with U. S. Marines acting as umpires to insure a fair count; and (2) That the controversy with Mexico over her new land and petroleum laws be submitted to arbitration.

Definte commitments as to the administration's attitude were difficult to obtain today, but it was evident that the State Department is cold to both proposals.

In Nicaragua, Secretary of State Kellogg has decreed that Adolfo Diaz is the constitutional president of the country, and has sent marines and warships there to keep him in power against Dr. Juan B. Sacasa, who is recognized by Mexico as the constitutional head of the republic. Kellogg has maintained that a constitutional principle is at stake. Hence, any compromise by way of a new election might be interpreted as an abandonment of that principle.

Count Salm Feels He Is Vindicated

(International News Service)

NEW YORK, Jan. 14.—Count Ludwig Salm, recent plaintiff in a separation suit against the former Millicent Rogers, Standard Oil heiress, feels that he has been vindicated "in the court of public opinion".

This was the assertion today of his lawyer, Herman B. Goodstein, commenting on the settlement of the suit out of court.

It is understood the count will receive from his father-in-law, Col. Henry H. Rogers, $325,000, with the stipulation that Salm will drop any claim he may have against his wife's parents for alienation of her affections.

CAN'T LOCATE BALLOT BOX

Detectives Unable To Locate Ballot Box Used In Pittsburgh

(International News Service)

PITTSBURGH, Jan. 14.—Failure of county detectives to locate a ballot box used here in the recent general election today further complicated an investigation by a special grand jury into charges of irregularities in Allegheny county as the jury considered further testimony before it.

The ballot box, stored in the basement of a school here, was mislaid after being delivered into the custody of John H. Carr, alderman of the ward, and subsequent efforts to locate at have proved futile.

District Attorney Samuel H. Gardner, in charge of the investigation, indicated that the ballot box contained votes cast in one of the ten districts suspected of having been involved in irregularities.

Texas Pastor Enters Plea "Not Guilty"

Pastor Arraigned Before Jury In Murder Trial Pleads "Not Guilty"

(International News Service)

COURTROOM, AUSTIN, Tex., Jan. 14.—Rev. J. Frank Norris of Fort Worth, arraigned before the jury of 12 who will pass on the charge of murder against the pastor, peladed "not guilty" as court opened today.

He is on trial on an indictment charging him with murder in the shooting to death of D. E. Chipps in the study of the First Baptist church at Fort Worth, last July.

Norris claims that he killed in self defense, firing only after he had reason to believe that his own life was in danger.

With the entering of Rev. Norris' plea the court battle was on.

Twelve married men each the father of children were on the jury.

Many Autos Left By Roadside Due To Icy Pavement

Following the rain last night the concrete roads of the county were covered with a thin film of ice, that made chains practically useless in steering an automobile. It was found hard to keep machines on the road on the level, and when it came to hills they would not take hold.

A New Castle man who was at Butler counted forty machines pulled off to the roadside between here and Butler. Between Prospect and New Castle he counted nineteen machines abandoned entirely and left by the roadside.

What became of the occupants is not known, but it is said that some of them walked to town or to their homes. This morning the ice had softened some and it was possible to get the machines out.

On other improved roads of the county it is said that scores of automobiles had to be abandoned. So far as learned there were no accidents, as drivers were extremetly careful as soon as the roads got in a condition making travel dangerous.

CHARGE BUNCO GAME TO TRIO

(International News Service)

PARIS, Jan. 14.—Marine Hines, 30, and Charles Chifton, 42, both of Chicago, and Leon Davidson, 51, of Kansas City, are under arrest here today charged with being members of an international gang confidence workers.

Police state that a large quantity of opium and morphine was found in their possession. They were arrested after three Canadians were taken into custody yesterday. Proposed Wampum Bridge Discussed; Cost Is Estimated

According To Present Plans Bridge And Viaduct Will Cost $412,000

County Commissioners Davis, Matthews and McCullough, with Attorney John P. Lockhart and Engineer C. H. Milholland, met the Public Service Commission at Pittsburgh Thursday, where the proposed bridge and viaduct at Wampum was discussed.

Ray McGeorge represented the borough of Wampum. Other parties represented were the State Highways Department, B. & O. Railroad Company, P. & L. E. Railroad Company, Wayne Township.

Engineer Milholland presented plans for the improvement which he estimated would cost $412,000. Representatives of the Pittsburgh and Lake Erie Railroad and the Baltimore and Ohio Railroad Company were present to inspect the plans and discuss the cost.

No definite agreement was reached as to the proportion of the costs to be borne by the railroad companies. Their representatives signified a willingness to pay for that portion of the viaduct spanning their tracks, but the county believes that they should pay more. Owing to the railroads it will be necessary to build the viaducts much longer and to condemn property. Were it not for the railroads the new bridge could be erected on the old site at a much smaller cost to the county.

It was agreed that the attorneys for the county, and the railroads submit briefs to the Public Service Commission, setting forth the proportion of the expense to be borne by each. These are to be submitted at another meeting which will be held in Harrisburg. The Public Service Commission, with this data before it, will then undertake to pro-rate the cost on an equitable bases. No time has been set for this meeting.

To Speak Monday At Scotland Lane School Meeting

Harold L. Holbrook of the state department of education, will make an address to the members of the Parents-Teachers Association at the Scotland Lane school in Union township on Monday evening at 7:15 o'clock, according to announcement made today from the school.

He will speak on the subject, "The Partnership of Home and School".

Indications are that a large crowd will attend the meeting.

Good Will Flight Planes Separate

(International News Service)

AMALPALA, Honduras, Jan. 14.—The American good will flight plans to separate for a brief time today.

The New York and St. Louis plan to continue their flight to Panama. Major Dargue and Captains McDaniels and Eaker will fly to Tegucigalpa to pay official calls on the Honduran government and continue to Panama on Saturday.

The planes had an uneventful flight here from Guatemala, but were unable to taxi ashore on account of soft mud in the bay.

OCEAN LINER BATTLES STORM

(International News Service)

CHERBOURG, Jan. 14.—The liner Berengaria came into port here today and reported having reached port only after a terrific battle during the night against furious storms.

Passengers were hurled about the ship as it pitched through gigantic seas. One woman is reported to have been seriously injured and to have been disembarked here and taken to a hospital.

The Berengaria sighted the Homeric last night, bound for New York and making terrific plunges in a raging sea.

No Request As Yet For Ballot Boxes Here

County commissioners have not yet received any call to send in ballot boxes from Lawrence county in the proposed Senate investigation of the Pennsylvania senatorial election. "Everybody knows we hold honest elections in Lawrence county", observed Commissioners' Clerk James Lamoree this morning, "and I don't think our ballot boxes would be any use in the investigation.

According to dispatches from Washington, the ballot boxes in Philadelphia and Allegheny counties are to be opened first. This was made clear at a second meeting of the Reed investigating committee following the passage of the Robinson resolution authorizing the inquiry.

As to other counties it was indicated that the committee would await a formal request from Senator-elect Vare and former Secretary of Labor Wilson, the rival senatorial contenders.

Vare, for himself, and Roland B. Mahany, for Wilson, signed an agreement respectfully requesting state and local officials in Pennsylvania to deliver all ballot boxes desired by the investigators.

Reed, as chairman, made it plain that the committee wants to be fair to both sides and will investigate districts at Vare's request as quickly as at Wilson's, where any evidence of irregularity appears, or where facts seem to justify.

Mystery Schooner Is Still Missing

(International News Service)

MIAMI, Fla., Jan. 14.—United States coast guard cutters have not located the Mystery J., auxiliary schooner, plying between Miami and Nassau, which left here Monday and has failed to arrive at Nassau where she was due late Tuesday, with twenty persons, passengers and crew, aboard.

No real fear for her safety is felt by Smith, Parks & Smith, Miami agents for the company that owns the boat, they stated today, expressing the belief the vessel has gone aground on one of the keyes and will be located within the next few hours by the coast guard.

CHICAGO, Jan. 14.—Judge K. M. Landis, high commissioner of baseball, today flatly denied published reports he was investigating the 1922 World series between the New York Giants and Yankees.

"My first information on the subject came today when I read in the papers that I was investigating the series," said Judge Landis. "I am getting tired denying groundless rumors."

Blizzard Is Racing Toward Eastern Coast

(International News Service)

CHICAGO, Jan. 14.—The mid-winter blizzard that buried Chicago under a foot of snow, paralyzed transportation and brought death and injury to a score of citizens, had vacated the Middle West today and is now racing toward the Atlantic seaboard states. Zero weather will follow in its wake, according to weather bureau forecasts.

The storm was general over the middle and far western parts of the country. Nearly two-thirds of the area of the United States today is covered under a blanket of snow, ranging in depth from three to 115 inches.

Five persons are dead in Chicago as a result of accidents directly caused by the heavy snow. A force of 15,000 men were unable to keep the streets and lanes of transportation open.

Serious interruptions to traffic are reported from all sections of the affected area. Air mail service out of Chicago has been temporarily suspended.

Wire communication over the affected districts is so badly crippled that no accurate account of conditions or the extent of suffering and hardship can be obtained.

Dime Asks $30,000 Damages In Case On Trial At Court

Claims He Was Permanently Injured By Auto Driven By Reuben J. Gackenbach

Damages in the sum of $30,000 are asked by James Dime from Reuben J. Gackenbach for injuries sustained in an automobile accident, in a case which went on trial before Judge Hildebrand this morning.

Dime, who is a well known promotor of athletic contests, alleges that on the evening of March 17th, 1923, he was on Croton avenue, and started to go across Croton avenue from the vicinity of the city tool house to the Universal Sales Company's show room, located on the east side of the street. He had proceeded about two-thirds way across the street, when he was struck by the Gackenbach machine, which it is alleged was going north at a high and dangerous rate of speed.

It is claimed that Dime was carried along the street nearly one hundred feet and that the machine was brought to a stop about 200 feet further on. Gackenbach came back to where Dime was lying and assisted in taking care of him.

It was found at the hospital that the bone in one of Dime's legs was fractured where it enters the socket at the hip. Several operations were performed in various hospitals and a steel pin fitted on the bone. Dime has since been a cripple and has expended large sums of money in hospital and doctor bills, the amount being estimated in the statement of claim at $5,000. He is permanently crippled and in following his occupation has to carry a man with him to look after him and his business.

Tris Speaker May Abandon His Fight For Vindication

(International News Service)

CLEVELAND, O., Jan. 14.—Tris Speaker today virtually abandoned his fight for vindication by Commissioner K. M. Landis of charges that he was implicated in a "thrown baseball" game.

This was indicated in an announcement by William H. Boyd, Speaker's attorney who declared that for the time being at least, nothing further would be done in the matter, in the hope that Landis would voluntarily absolve Tris of the charges.

"We confidently expect that in due time Judge Landis will do the fair thing" Boyd told International News Service. "We believe that at the proper time the commissioner will clear up the whole matter."

where he made known the man's plight and asked for assistance. Ropes were secured and soon a crowd collected on the banks of the river to watch a rescuing party which carefully wended its way over the railroad ties to the centre of the bridge overlooking the pier.

Unable to Explain

A noose was made in the rope and the man was instructed to fasten it under his arms. It was with considerable difficulty that the rope was finally thrown within his reach. When hauled up on the bridge he was found to be covered with blood from his wounds and very weak.

The man who was a foreigner, unknown in the neighborhood, was unable to give a very good account of himself. From his incoherent remarks the rescuers gathered that he had been shot by some unknown assailant and forced into the river, where he managed to reach the pier. He claimed that one bullet had made the cut on his forehead, and another the wound in his throat. The wound in his throat was the worst, the bullet narrowly missing the jugular vein.

He was unable to give any further particulars and was sent to the Ellwood City hospital.

After he has recovered sufficiently, it is believed he will be able to explain his identity and tell what happened.

Mother And Baby Daughter Die Of Poison Gas Fumes

(International News Service)

GREENSBURG, Pa., Jan. 14.—Believed to be victims of carbon monoxide gas generated by a small gas stove, the bodies of Stella Golden and her daughter, Frances, were found in bed at the home of John Trawvinski, in East Vandergrift, Coroner James Harkins was notified.

The Trawvinski family said Mrs. Golden and her daughter had been rooming at their house. The mother and child retired at the usual hour last night, but during the night the babe's cries were heard frequently until about 3 a. m., when they ceased. The discovery was made this morning when Anna Trawvinski called the mother and child for breakfast. Receiving no answer she went to their room and found them dead. The woman is believed to have relatives in Newark, N. J.

Pinchot Forwards Power Project To President Coolidge

(International News Service)

HARRISBURG, Pa., Jan. 14.—Governor Gifford Pinchot today forwarded to President Coolidge a copy of the report made to him by the giant power board. The governor cited four reasons why he believes the plan is the only comprehensive proposal for guiding and controlling development of our electrical power sources.

Pinchot's letter asserted that electric service is our biggest economic problem and that the Pennsylvania plan for dealing with it challenges the attention of every man in public life.

A tri-state power map showing the territory in Pennsylvania, New Jersey and New York, controlled by each important light and power holding company accompanied the report.

TYLER WANTS TO TALK TO GRAHAM

Says Some Paving Is Deteriorated By Poor Equipment

Councilman Walter V. Tyler today said it is his belief that when several thoroughfares are improved by the city next spring the P.-O. company should lay new equipment, inasmuch, he said that it is his belief that poor equipment in several streets had had considerable to do with deteriorating paving.

Council plans to let contracts for repaving Crawford avenue and South Mill street.

It is also expected that West Washington street, west of Front street, will be improved.

The latter area is in bad shape, Tyler charged today and he ascribed part of the fault to poor railway tracks.

cast in Pennsylvania's 1926 senatorial election was taken by the senate today when its sergeant at arms, David H. Barry, left for Philadelphia to superintend the seizure of ballots in that city.

Barry was commissioned to impound the ballots in districts where Senator-Elect William S. Vare, R., had rolled up huge majorities by "fraud and corruption."

Barry then will proceed to Allegheny county, including Pittsburgh, it was said, and seize the ballots in districts there in which Wilson alleges fraud and corruption had occurred.

Rev. McClure To Speak On "Why I Believe In God"

Rev. Walter E. McClure of the First Presbyterian church will preach a sermon Sabbath night on the theme "Why I Believe in God." Much of the material for the first part of this sermon will be taken from the recent book by Dr. Francis L. Patton entitled "Fundamental Christianity."

The first chapter in this book is on "The Theistic View of the World." The message will first set forth the rational reasons for believing in a Supreme Being. Then from the prophecy of Isaiah we will consider the true conception of God. Most people in New Castle do believe in a Supreme Being, but all together too many act as though there would never come the time when we would have to face God, says the minister.

Do you really believe there is a God and that you will one day be called into His presence? he asks.

Boy Scout News

Troop 10 is requested by Scoutmaster Guy L. Raney to meet at nine o'clock sharp tomorrow (Saturday) morning in front of the courthouse. All the boys are urged to be present and to be there promptly as a visit to the court is planned and the scoutmaster says it is a sure thing that the boys will benefit by this.

Troop 17 will meet tonight (Friday) at seven o'clock at their regular place, where they will hear an interesting talk on Alaska by Edward C. Davis. Scoutmaster Shultz will be in charge and all the boys are urged to be present, as a very good talk is assured.

There isn't much to do about the cotton situation except to pass resolutions condemning the boll weevil for loafing.

Bright Bumper To Enlarge Equipment

Stockholders of the Bright Auto Bumper company, held a meeting recently, elected all the old officers and according to announcement it will be necessary to enlarge the equipment to take care of the demand for bumpers.

Production is increasing daily and plans are being formed for a sales organization to dispose of bumpers in this section.

TEACHING A NATION TO AVOID SEVERE COLDS

SOME DAY scientists will know the cause of colds, now so costly and so dangerous. Until that day comes, however, we are sure of one thing: To avoid a BIG cold stop a little one.

In relieving colds, little or big, the following treatment has been found effective in millions of cases for over 20 years:

1. *Rest in bed,* if possible, thus giving the body a chance to regain its vitality.
2. *Take a Laxative*—this cleanses the body of impurities which reduce the natural resistance.
3. *Adopt a simple diet*—An easily digested diet rests the digestive organs.
4. *Rub Vicks VapoRub* on the throat and chest. Vicks is especially valuable because its medicated vapors, released by the body heat, are breathed direct to the inflamed air passages. At the same time it stimulates the skin like a poultice.

Mothers cherish Vicks for children's colds because, being externally applied, it cannot upset delicate digestions.

VICKS VAPORUB

Quick-as-a-breath Test

Put Vicks in a bowl of hot water. Inhale the vapors. Quick as a breath you feel the medication in the air passages and lungs.

COMPULSORY AUTOMOBILE LIABILITY INSURANCE

AUTO owners and organizations throughout the country are watching with eager interest the outcome of the new plan that has been instituted in Massachusetts this year, the law requiring compulsory liability insurance on the part of all auto owners having become effective. The law provides that every car owner must present a bond or insurance policy covering accident liabilities, in order to secure a license.

The fact that in a majority of accidents the offending owner or driver was financially irresponsible led to this new law.

The state in thus protecting people against personal injury and property damage has the advantage, for the privilege of driving a car depends upon furnishing the required bond or policy.

Opinions in the state differ as to whether the new law will make drivers more careful or less concerned about the effects of their driving, having paid for bond or policy to cover any losses for which they might be responsible. In the early days of fire insurance it was strongly argued that carelessness about premises would increase and many would be tempted to commit arson. Experience has shown that such arguments were unfounded. Owners and drivers of machines will be careful to avoid accidents, knowing that if they get a reputation for recklessness it will be difficult for them to secure bond or insurance next year.

The number of auto licenses issued this year in Massachusetts will be awaited with considerable interest by officials there and in other states anxious to know if the law deprives many of the right to drive.

PROMISE WITH CARE

TRADITION says that the sovereign of an ancient kingdom offered to grant one wish to the inventor of a new game which would amuse his army, wearied in a long siege.

A venerable man thereupon came forward with the game of chess, and it fitted the need.

Told to state his wish, the inventor suggested one grain of wheat for the first square on the chess board, two for the second square, four for the third square and so on, doubling up to and including the sixty-fourth square.

The king, amused at so queer a wish, ordered his chamberlain to give the old man a sackful of wheat and send him away. But the aged inventor insisted upon exact measurement.

A schoolboy who once had the patience to reckon this sum found that the wheat would load a train of cars reaching from the earth to the moon and back, thence half way around the earth.

Be careful what you promise.

ON OUR OWN RESOURCES

THE individual who is thrown upon his own resources, in a great many instances becomes the man upon whom others depend. His growth, mental and physical, is more than likely to be of a substantial character. When his perseverance and pluck is crowned with success, well may he take pride in the accomplishment. His family and friends honor him. To them he typifies the spirit that has made American business men and their methods the envy of the world.

A city like an individual is no greater in wealth strength or otherwise than its citizens make it. It matters not how much wealth, how great the natural advantages of the place, if the people who live there allow the wealth and advantages to lie dormant, it will never grow.

New Castle has the wealth, it has the natural advantages far in excess of most cities. It has advantages that many cities would give untold millions to possess.

Why should not New Castle be the master of its own destiny, why should foreign capital and brains be looked for in the development of the city?

The outside promoter who interests local capital and brains in an enterprise, is ordinarily some one far less capable than the associate gained. His interest is naturally and necessarily for the absolute purpose of personal gain.

The city which is made great and developed by its own citizens becomes the city of strength, and the builders, with the consciousness of having brought this about take pride in their accomplishment.

Some people can't see the point unless you get down to brass tacks.

When a man becomes disappointed in love it is usually because love is disappointed in him.

People are like grapes; some are allowed to ferment while others just become grape juice.

The modern girl has simply decided her face can either be her fortune or her misfortune.

Hints and Dints

Sun sets tonght 4:57. Sun rises tomorrow 7:22.

State highway authorities revoked 2,518 automobile licenses in 1926, which was less than in 1925 when 2,571 were revoked. There is still room for improvement. In fact, there are just 2,518 instances where improvement can be made this year.

Dear Sir: Speaking of movie theatre nuisances, what about the man who sits immediately behind you, plants his knees in the back of your chair and joggles you during the entire performance? I do not know what would be sufficient punishment to suit this crime, but I would respectively suggest that he be boiled in oil. A Weekly Sufferer.

He was a selfish man. She had a quick temper. They married. And only the other day we read in this paper that another divorce suit had found its place on the docket.

A fair minded woman is one who can enjoy gossip for an hour and not believe a word of it.

The champion coffee drinker of the United States lives at Fergus Falls, Minn. When not drinking coffee he porters in a barber shop. He drank 85 cups of coffee at one sitting, or whatever he does when he drinks coffee. No doubt he also grunts while going about his chores.

We sometimes fall down and so does the weather man.

Barbers in London say that whiskers and mustaches are coming back. They say man are going to let these decorations take their natural course because women are adopting all the styles of men. One thing is sure, the ladies will never go around with a bunch of disorderly looking goshdingits on their beaks. The men thing this is one thing they cannot imitate.

There is a likelihood of there being more deaths from the drinking of too much red eye instead of the drinking of a small amount of poison hootch. Men can also eat too many doughnuts.

A Chicago doctor who is also a professor of phychology, says stomachs are unnecessary. That may be but when one has one that is acting disorderly, it's quite a difficult matter to shed it—that is entirely.

Court cases in many Texas courts are being held up until Ma Ferguson goes out of the office of governor. She has pardoned some crooks right after they were tried in the courts. Some horrible examples get into the governor's office in many states.

John D. Rockefeller wore a pair of earmuffs on the golf links at Ormond Beach, Fla., one day this week. It looks as if Florida has a good case against him for damages.

Judge Landis, the big mogul in baseball, did not believe one or two liars.

In one day recently 21½ tons of nickels were deposited in the fare boxes of the elevated roads, subways and surface street car lines in New York City. There are quite a few nickles when a lot of them get together.

"Providence" is one word for it and "Fate" is another, but as a rule you'll find that most of your troubles were brought on by your own blunders, etc.

A niece of Gov. Pinchot is going to quit the stage and enter the University of California as a student. Her uncle will soon be off the stage also.

An inquirer wants to know if there is no marrying in heaven, as we are told, what the dickens will the divorce lawyers do if they ever get there.

The man who is charged with killing an editor in Canton, O., said he did not have a fair trial when he was sentenced to prison for life. The editor was shot in the dark and in the back. He didn't have much of a fair chance by a long shot.

In a dining room in a Pittsburgh hotel, where there are quite a few seats in the ante-room has a sign in a prominent place on the wall which reads "Parking Limited to One Hour." Most all the girls we happened to see in that place a few days ago were viciously smoking cigarettes. An hour for any we saw was long enough.

They tell us that a bobbed haired, plainted cheeked flapper is dumb but compared to the blooming youth we see on New Castle streets with his balloon trousers, his sagging socks, his tri-colored sweater and his sleek hair, she'd be a monument of intelligence.

A winter resort can be described as a place where the natives have only three months to get it—and they do. Same with summer resorts.

Knowledge and Experience Are Worth the Price.

A machine broke down. The operator, the foreman and the plant engineer couldn't start it.

The expert took one quick look at the machine, tapped it several times with a hammer, and told the operator to start it.

His bill was $250. When the superintendent asked for an itemized statement he got this:

Tapping with hammer, $1.
Knowing where to tap, $249.

Money in circulation in the United States on January 1, 1927, was $5,001,322,207, a per capita rate of $43.03, compared with $4,949,247,261, or per capita of $42.62 on December 1, 1926, treasury department stated. Stock of money in the United States on the first day of this year was $8,643,293,736, of which gold coin and bullion represented $4,502,429,488.

It has been suggested now that the right size for a campaign fund is big enough to help a candidate into office, but not big enough to help him out.

There are some candidates who can testify truthfully that they never used money in politics—that is their own money.

Put your trust in rouge girls, but keep powder dry.

The beauty doctors, having bobbed the world's hair, now want to let it grow again. But the girls think differently.

Over in Sunbury, Pa., 111 people are laying claim to a share in an estate of $10,000, and the chances are all will be disappointed because their share is so little. They won't be able to go far on their share of the swag if it is divided evenly.

Bill Rose who runs a paper at Cambridge Springs says the world's greatest heroes are the bill collectors. They earn lots of medals they never get trying to collect from the slow-pay boys and no mistake. The next to the biggest heroes are the men who pay their bills on time according to this same man. Those are the kind we like to talk to.

The hair of bobbed headed girls look like floor mops says one sarcastic hen, but that's all right to look like a mop, the girls never look at one.

Discussing the "Barber of Seville," a modern Dumb Dora wanted to know where his shop was and if he bobbed girls' hair.

Now the City Planners are having a convention. Just as soon as some new thing is started there must be a national convention of those interested in it. Bout time now for a National Bill Collector's society convention.

Sheik hair has been banned on the basketball teams at West Virginia University at Morgantown. The hair gets into their eyes and they cannot see to play properly and hence lose. Now we know the hair will come off. When it interferes with athletics it must be removed. It doesn't matter a bit if the hair gets into their eyes as they are studying. Thousands of people don't cheer a student as he recites a perfect lesson.

People taking a Caribbean cruise these days might run into the warships and the Marines of Uncle Sam in the waters around Mexico and Nicaragua. That would be worth seeing.

Forty thousand germs are said to be transferred with each goodnight kiss. The scientifically educated flapper, when her sweetie asks for a good night kiss, will reply, "Don't Bacilli."

Much that now passes for personality was formerly known as just plain gall.

One of the poorest ways to get out of an automobile is through the windshield.

Man is an animal with sufficient intelligence to defend his meanness.

Ehe isn't old enough to be called "Miss" until she learns not to get her tube of tooth paste messy.

LOCUSTS FOR STOCK FOOD

The South African Locust Product Company will manufacture cattle and poultry feeds from locusts. Locusts have long served as a delicacy for natives of South Africa and also been fed to cattle; but this is the first time that an attempt has been made to commercialize the supply of locusts meal as a stock food. The locusts are dried, sterilized, and then crushed and ground into various grades of meal, from a coarse cattle feed to a concentrated feed.

Modern educational processes has greatly simplified the three R's from readin' 'ritin' and 'rithmetic to rah, rah, rah.

There were no pardons from the White House this holiday season, for the reason perhaps that one or two wouldn't get any notoriety in view of the thousands the governor of Texas handed out.

If only people could "serve" with their hearts and hands, without thrusting their noses in.

Normalcy, in America, is that stage half-way between silk shirts and the breadline.

Too many people think they are sophisticated when they are merely suspicious.

Religion and Oil.
Even a Little.
Red, and Wicked.
Cannon Behind Dollars.

By ARTHUR BRISBANE
(Copyright, 1927, By N. Y. American, Inc.

Calles, Mexican president, accused Catholic bishops of ordering Mexican uprisings that killed 75 protesting Catholics and 24 Mexican soldiers. He accuses the bishops of urging the faithful to march against the government under a banner inscribed "Long Live Christ, the King."

That banner has travelled a long way in the past and won many fights.

A practical, successful American from the city of Mexico, visiting Wall street, said: "If Calles had attacked the church only, he might have succeeded. If he had attacked American owners of Mexican oil wells only, he might have got away with that. But a man attacking religion and oil at the same time, is going to have trouble."

Young gentlemen, it pays to save. Even a little may be worth while.

Couzens, asked to pay $9,000,000 more income tax, had saved $900 when he met Ford. That gave him his chance. By and by he sold his interest to Ford for $30,000,000. If he hadn't saved the $900 he could not have the government suing him for $9,000,000.

Moral: Save something, if only a little.

Secretary Kellogg says the red and wicked Communist bolsheviki are aiming at Latin America. They control and force the Nicaragua-Mexico policy, trying to destroy what they call our United States capitalistic imperialism.

They must be hopeful, wicked bolsheviki, for American capitalistic imperialism has only started. And as for Latin-Americans, whoever thinks communism, with its theory of dividing, will appeal to them, does not know them.

When agents of Moscow tell Latin-America to divide wealth, they will hear a loud "mamma" reaching from the warm Rio Grande to freezing Terra Del Fuego.

The British, that send flying men with bombs and ships with heavy guns wherever British money or life is menaced, display increasing respect for President Coolidge, now that he tells our neighbors what they may and may not do.

The London Times thinks we are modifying the Monroe Doctrine, claiming special rights of intervention, etc. Quite correct, we are sure.

The Giornale D'Italia says "United States policy may be called one of authority and force," and adds, "When necessary there are cannon behind American dollars." Also correct. Dollars without cannon behind them are feeble things, like flabby jellyfish. It is the cannon that transforms flabby dollars into veterbrae dollars.

Twelve chain store concerns last year did a combined business of $660,000,000; more than 50 millions average. Chain stores can make the most economical, complete use of advertising. Put your stores where people reach them easily, then advertise them. That means success.

Merchants with great institutions in big cities will, before long, be establishing branches in the same cities. Make a note of this prediction.

A number of English villages are swept with a pox epidemic such as has not been seen in nearly a century; 58 cases in one place, 15 in another. Like some Americans, many English people have decided that "vaccination is all nonsense". It is better than genuine smallpox, however, and fortunately a few smallpox cases always provide a wonderful cure for the anti-vaccination nonsense.

Fundamentalists in New York seek to raise $400,000, the richest city's quota for the $5,000,000 William J. Bryan Memorial university at Dayton, Tenn.

Mr. Bryan, a powerful, sincere man, deserves a memorial. He ought to have something better than an institution intended to check and rebuke scientific research.

Germany is taking steps "to prevent influx of foreign gold". Who would have thought that not long ago, when you could buy a trillion (which means one million million) marks for less than 30 cents. The last shall be first, and he who loses a war wins it.

Arthur Keith, who has just been elected president of the American Geological Society, will complete this summer his 40th continuous year as one of the expert investigators of the U. S. Geological Survey. It was in 1887 that Mr. Keith, after his graduation from Harvard, first entered the employ of the Geological Survey, then as now one of the leading scientific services of the government. Much of his work has had to do with making known the geology of the Appalachian area, from Maine to the Carolinas. He has also made a special study of earthquakes and is considered the expert of the Geological Survey in this subject. During his many years of service Mr. Keith has published a large amount of scientific work and in 1907 he was placed in charge of the Geological atlas of the United States.

Dr. Crane's Editorial

THE OWNER OF BOOKS

There are some people who like to own books, just as others own canes or teapots or any curiosity.

Their houses is full of bookcases and their book shelves are full of old volumes. They haunt auction sales and pay, if they can, fabulous prices for first editions. These people are called bibliophiles.

A bibliophile seems to be a person who loves the outside of books. He doesn't care much about what is in them.

The owner of books is not necessarily a great reader.

Your real reader does not much care to whom a book belongs; all he wants is the information it contains.

The real reader is a chooser. He can tell when he strikes a sea of inocuous platitudes or a mountain range of useless difficulties.

As a matter of fact most books are mostly padding. They contain a large amount of matter merely to fill up space. Very few tell you simply and consisely what you want to know.

So the older the real reader gets the smaller his library becomes.

Oliver Wendell Holmes said that his books gradually decreased in number until he had only about ten or twelve at the time of his death.

There is a good deal of snobbery and pretense about being a great reader and keeping up with the latest books.

Books pour from the presses of the world in a veritable Niagara. If a man were to read all the latest volumes he would have to have nothing else to do.

Amerson said, "There are eight hundred and fifty thousand volumes in the Imperial Library in Paris. If a man were to read industriously from dawn to dark for sixty years, he would die in the first alcove."

The are of being a good reader is the art of being a good selecter. It is as important to know what to choose and what part of the book to read as it is to be an industrious reader.

This does not mean that reading should be only for a purpose and we should never read anything but what is useful.

Reading is also an amusement and sometimes it is engaged in for the fun of the thing.

But the art of skipping is necessary none the less, and the best part of the ability to read is the ability to tell what not to read.

A good reader is a skillful hunter and not an omnivorous gulper.

AMERICANISM: Subscribing for a magazine to get a set of books.

The World AND THE Mud Puddles

THERE ARE OTHERS.

There is much publicity given now to all men who have led active lives, and who have lived beyond the age of ninety years. Perhaps no man receives greater attention than Chauncey M. Depew, who happens to be in his ninety third year. The Honorable Chauncey has been in his lifetime much sought after by those who gave great dinners because of his cleverness in the use of the King's English. It is a fact that while Mr. Depew has attended many dinners in his lifetime, he has eaten few of these dinners. He determined that too many cooks would eventually ruin his digestion if he ate the things served at the multitudinous dinners which he attended, and he therefore always ate his usual dinner before attending the affair to which he had been invited. Perhaps the observance of this rule has added to his years.

There is another man in America who is past the age of ninety, and whose name is well known to most Americans. It is Lyman Gage, Ex-Secretary of the Treasury, and Ex-banker of Chicago. Mr. Gage also has attended many dinners. He also has spoken very cleverly at these dinners. He still attends them. He has always eaten of something offered at these dinners, and he still eats upon these occasions. Mr. Depew has ceased to attend dinners. Mr. Gage up until last year, drove his own automobile, upon occasion over the roads of California. The Chief of Police of San Diego for several years has tried to persuade Mr. Gage to make an end of his personal operation of a motor vehicle, but Mr. Gage insisted he was amply able to take care of himself, but did make a promise that when he reached the age of ninety, he would cease to drive his own car. It is with great regret to himself now that he is fulfilling that promise mad to the head of the SanDiego Police Department. It is doubtful whether the Honorable Chauncey has ever driven his own automobile.

I attended a dinner recently given by Erman J. Ridgway, in honor of George Creel, who, it will be remembered was chief Censor for the United States during the War. Mr. Ridgway himself has been a great publisher, having been associated with Frank A. Munsey during his lifetime, and having himself published Everybody's Magazine. Mr. Gage sat upon Mr. Ridgway's left. After Mr. Creel had responded to a toast, Mr. Ridgway was seen by the guests talking to Mr. Gage. Mr. Gage was emphatically shaking his head. Nevertheless, Mr. Ridgway rose, and said that while Mr. Gage was probably unaware of what was about to happen, he would call upon Mr. Gage to say a few words. The man who is now entering the last stretch of a century's life, arose unshaken, and in a strong carrying voice, he spoke with as much wit and wisdom as I think he ever spoke in his life. Again seating himself at the conclusion of his talk, he nonchalantly lit a cigarette.

Is there any ninety-year old man in America who can repeat this performance?

Just Folks

By EDGAR A. GUEST

WHERE I FALL DOWN

I ought to be firm! When I'm sitting alone
This old heart of mine is as hard as a stone,
But when you're standing near with that look in your eye
About all I can say is: "There, now don't cry!"

You cute, little four-year-old whimsical miss
I know that I ought to be crosser than this.
I promised your mother I'd scold you today,
But I haven't the heart when you're sobbing that way.

I can bluster and storm at the grown-ups round here,
But with you I can't even pretend I'm severe,
And I'm sure that you know it, you mischievous tyke,
For you do with your daddy about as you like.

She says it's high time that your training began,
And I answer: "Well, let someone do it who can."
If you must be punished, it's plain as can be
There is no use in putting that job up to me.

POEMS HOME By CHARLES HANSON TOWNE

"The World Is Too Much With Us," by Wordsworth.

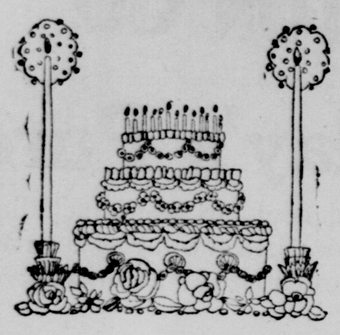

This famous sonnet is in Wordsworth's most inspired mood. It is one of the finest things any poet has accomplished in this difficult form, and its beauty is the fixed beauty of a star. Much of Wordsworth is dry as dust; but the handful of deathless poems which he has left us are intimate transcriptions of the animate world; and sometimes it seems as though Nature herself had spoken through him.

The world is too much with us; late and soon,
Getting and spending, we lay waste our powers.
Little we see in Nature that is ours;
We have given our hearts away, a sordid boon!
This Sea that bares her bosom to the moon,
The winds that will be howling at all hours
And are up-gathered now like sleeping flowers,
For this, for everything, we are out of tune;
It moves us not.—Great God! I'd rather be
A Pagan suckled in a creed outworn,
So might I, standing on this pleasant lea,
Have glimpses that would make me less forlorn;
Have sight of Proteus rising from the sea;
Or hear old Triton blow his wreathed horn.

POOR CHARLIE TELLS HIS WOE

Chaplin Discusses His Marital Troubles In Mournful Mien

DENIES CHARGES ISSUED BY WIFE

By SARAH BROWN
International News Service Staff Correspondent

ABOARD TWENTIETH CENTURY LIMITED, ENROUTE TO NEW YORK, Jan. 14.—"She has been very cruel to me," the man whom Lita Grey Chaplin is accusing of infidelity, cruelty, and dozens of other startling abuses, sat in his drawing room on this train early today, and, as he idly flipped a deck of cards in a game of solitaire, talked to me alone for over two hours.

"Cruel is the only word that expresses it," said Charlie Chaplin, as the cards slipped through his slender, delicate fingers and the landscape outside hurried by in a black blur while he discussed philosophy, life, religion, fate—and love.

"I hate combat—I hate bickering and fussing. But now—that such utterly vicious, viperous lies have been told about me—it's a case of standing with one's back to the wall and fighting it to a finish.

"Lita's action was so sudden and so unprovoked. The statements in her bill were terrible—terrible lies. When the time comes I can prove it—a man can't work night and day, writing acting and directing, as I have done, and have time for all or even any of the things she says I have done.

"That's why I say she's cruel to me. I have been patient with her, and have done my best to make her happy. Why she should turn, and with such venom, do all the spiteful, vengeful things she has done I don't know.

"All I can say about it is that she can't really hurt me. No one, as long as he knows he has done right, and has nothing to shrink from in guilt, can be hurt by such a situation."

He pushed the cards away from him suddenly, and the face which has made countless thousands laugh seemed suddenly very old, very tired and unspeakably sad. It was after circus hours, and the clown had dropped his mask.

"I can't tell you what a home—a real home and a family mean to me," he said. "A house filled with beautiful things is worse than nothing when you have to live in it by yourself. But to have a wife—a sympathetic comradely person, and children—to have that would be all I'd ask of life.

"Now—well, I've tried to make that dream come true. Perhaps that's the trouble with your most perfect dreams. They never come true.

"Do you know, I never had any real unhappiness until I became rich and successful—cold-disappointment-despair — those things are nothing compared to the staggering blows that hit you in the heart—hypocrisy, treachery and slander. Before I knew my friends took me for what I was. Now I can sometimes feel greedy fingers reaching for the gold they think I possess—which, by the way, is far from being sixteen millions of dollars. That's ridiculous.

Pittsburgh Man May Be Named Highway Chief

Political Circles Say Fisher Will Appoint James L. Stuart

(International News Service)

PHILADELPHIA, Pa., Jan. 14.—Should Governor-Elect John S. Fisher announce his cabinet selections tomorrow, it is reported in political circles here that the appointments will include James L. Stuart, of Pittsburgh, as secretary of the state highway department.

Other persistent rumors are that Fisher will name James F. Dewey, of Chester, as secretary of labor and industry. Dr. Frank Lee Wright, of Massachusetts, is regarded as the likely choice for superintendent of public instruction, but there has been no definite action towards naming a successor for Dr. Ellen C. Potter in the battle for secretary of public welfare.

The governor-elect left here last night for his home at Indiana, Pa., after a four day conference with political leaders at the Union League club here.

Homestead Woman Plunges To Death From Out Window

(International News Service)

PHILADELPHIA, Pa., Jan. 14.—Mrs. Florence Boyce, 36, of Holmesburg, a suburb, met instant death early today when she leaped, police said, from a window on the third floor of the Osteopatmic hospital here.

Mrs. Boyce, according to police, was admitted to the hospital last Saturday suffering from a nervous ailment. Early today when a nurse left her bedside, Mrs. Boyce, it is alleged, fled to a window and plunged to her death. She was the mother of four children.

"Arrest that man." yelled Mussolini. "He seems to be thinking."

Legion Planning For February 22

Washington's Birthday To Be Observed In Notable Manner By Legion

COMMITTEES ARE WORKING ON PLAN

Each year for the past four years, the American Legion has set aside the birthday of the Greatest American, February 22, as the day upon which to hold its annual banquet.

Started as a gathering of a handful of ex-service men, the Washington Day Dinner of the Legion has developed into a civic enterprise that is looked forward to with anticipation, not alone by ex-service men but by the citizens of the community.

Big Affair This Year.

This year the Washington Day Dinner bids fair to be the banner event of such endeavors. District Deputy State Commander Pat. J. Dempsey of the local post is general chairman of the day and Pat is "putting out" some real effort in the arranging of it. With him is a committee consisting of Social Chairman Louis B. McAneny, Past Commander William G. Fleming, Past Commander E. C. Hoye, Adjutant Clarence A. Patterson, John Higgins, Earl Sowers, Phil G. Greer, Ivor V. Davis, Charles Wirsing, Charles E. Allen and Commissioner of the Chamber of Commerce, A. W. Chilton.

Many posts of the American Legion in the 26th Congressional District are sending delegations. Butler plans to send a large number of men, and its Drum and Bugle Corps.

A speaker of national prominence is being sought and will be announced later. Sunday afternoon, January 16, a committee meeting will be held in the Legion Home to further the plans already made.

Formal Inquest In Davenport Slaying Is Opened Today

(International News Service)

PITTSBURGH, Jan. 14.—Formal inquest into the murder of Harry Davenport, Wilmerding borough constable and chief of Westinghouse Airbrake company, opened at the borough police station, with County Coroner W. J. McGregor in charge, today. Ten witnesses, including four county detectives, the widow and son-in-law of the slain constable were called to testify.

Davenport, who was known to have made enemies during his raids of Wilmerding resorts, was shot to death as he left the Westinghouse plant at Wilmerding December 19.

Suggests Icy Walks Be Ashed

Received by the News today was a request from a North Hill lady, aparently an old lady, who has a suggestion which is a valuable one.

The lady suggests that the citizens of the North Hill put ashes on their sidewalks and thus facilitate walking. On days such as today, walking is fraught with some peril, especially to those of any advanced age.

Recently a woman of the North Hill broke her arm when she fell on a sidewalk on Highland avenue near Moody. The sidewalk had not been cleaned after a snowfall, ice had formed and she fell, breaking her arm. A suit is liable to be entered against the property owners where this occurred, and this feature of protection is in itself worth considering in the placing of ashes or sawdust on the icy sidewalks.

This addition to the fact that this city has an ordinance requiring property owners to keep their sidewalks clear of ice and snow.

Man Kills Self, Rather Than Give Up To Officials

Michigan Husband Wounds Wife And Friend, Barricades Self

(International News Service)

JACKSON, Mich., Jan. 14.—Howard Kenkle, a railroad man, killed himself at his home today while a posse of deputy sheriffs and state and city police were attempting to force his surrender with machine guns and gas bombs.

Earlier in the day Kenkle shot and seriously wounded his wife and a neighbor, Orville Case. Attending physicians say they will recover.

Kenkle barricaded himself in the house and defied the posse. Hundreds of shots were fired into the building and gas bombs were hurled through the windows. When the officers rushed the door they found Kenkle on the floor dead. Powder burns on his shirt indicated that he had shot himself.

Case found the Kenkles in the midst of a quarrel when he dropped in for a visit, police say. Kenkle drew Case into the argument, then seized a revolver, first shooting his wife and later Case, it is said.

Young Doctor Discovers Rheumatism Serum Said To Be Highly Successful

(International News Service)

PHILADELPHIA, Jan. 14.—The new serum for the treatment of rheumatism discovered by Dr. James C. Small, young $2,000 a year bacteriologist of the Philadelphia general hospital, has proved successful in 100 per cent of the cases treated, Dr. Small declared today.

Of 16 patients suffering from acute attacks of rheumatic fever treated since I began work on the serum last March all were cured," Dr. Small said. "However," he added, "this serum is only in the experimental stage as yet and the numebr of cures effected has been too small to warrant arousing undue hopes as to its ultimate efficacy in curing all sufferers of rheumatic fever."

Public announcement of Dr. Small's discovery was made late yesterday by Director Wilmer Krusen of the department of health here following publication of details of the discovery of the new serum in the January issue of the American Journal of the Medical Sciences.

Many Lives Lost, British Tanker Is Damaged By Fire

(International News Service)

MEXICO CITY, Jan. 14.—Between eight and twelve lives are believed to have been lost in a disastrous fire aboard the British tanker Essex Isles at Tampico, according to dispatches received here today.

Woman Commends Police Courtesy

A letter was received today by Chief of Police Henry Dysart from Mrs. Lillian Dillon of Rushford, N. Y., commending the act of courtesy extended her son and brother by the department and particularly by Officer James Wysner on the occasion of the recent death of her father, August DuBois, who was taken ill while at a local hotel. She states that had it not been for the services of Officer Wysner and the department, that her son and brother, strangers in the city, would have had considerable difficulty in arranging the details of the funeral which was held here. She stated that she felt deeply grateful for the kindness and courtesy extended by the department and Officer Wysner.

Vatican Spokesman Denies Church Is Fostering Revolt

(International News Service)

ROME, Jan. 14.—"The church never fights its enemies with the sword or fire but with spiritual power derived from prayers to Christ," said the vatican spokesman today in denying charges that the Catholic church is supporting and inciting rebellion in Mexico.

Edward L. Hearn, supreme commissioner of the Knights of Columbus, denied that the Knights of Columbus are supporting the Mexican rebels in any way.

Do not turn your back on troubles; meet them squarely.

Press stolidly toward achievement. Let others chase fame.

Wounds Fatal To Police Officer In Philadelphia

(International News Service)

PHILADELPHIA, Jan. 14.—Policeman William Slook, 38, died here early today while 700 comrades throughout the city prepared to offer their blood for a transfusion in a final effort to save his life.

Six bullets fired at close range lodged in the officer's body early yesterday when he sought to question two men and two women in an automobile.

Four alleged occupants of the automobile are being held.

There are more autos than kitchen sinks in the United States. Well, who wants to ride in a kitchen sink?

Reserve Decision In Application Of "Kip" Rhinelander

(International News Service)

NEW YORK, Jan. 14.—The appellate division of the supreme court today reserved decision on the application of Leonard Kipp Rhinelander for permission to take to the court of appeals the decision awarding $12,000 counsel fees to his wife, Mrs. Alice Beatrice Jones Rhinelander, who so far has successfully contested her husband's suit to annul their marriage.

The $12,000 award granted by the supreme court was upheld by the appellate division some time ago.

In Religious and Fraternal Circles

Stephenson Circle.

Monthly meeting of the Stephenson Circle of the First M. E. church took place at the home of Mrs. E. C. Beahm of East Moody avenue Thursday evening.

Following the devotional meeting led by Mrs. D. R. Bollard an attractive program was carried out.

Mrs. Robert Meermans gave an interesting talk on "Native Measures of Reform Among the Mosiems." Mrs. J. C. Pherson read a missionary story and Mrs. H. C. Weaver gave an impromptu talk on Missions which was especially enjoyed. Two piano solos were given by Miss Charlotte Bartlett.

Refreshments were served by Mrs. Frank Streib's group. The next meeting will take place in February with Mrs. J. C. Douthitt, hostess.

Missionary Circle.

Members of the F. and D. Missionary society of the Central Presbyterian church will meet Tuesday evening at the home of Mrs. Geo. Dwuer of Croton avenue.

O. U. Girls.

Members of the O. U. Girls of Central Presbyterian church were entertained Thursday evening at the home of Miss Adah Carpenter at the usual monthly meeting.

The devotional hour was led by Mrs. Myrtle Tucker. Mrs. Lester Miller discussed the foreign topic, "China" and the national topic "National Missionaries" was reviewed by Margaret McKee. Mrs. C. B. Wingerd who was a special guest gave an interesting talk on China.

Refreshments were served at the close of the program by the hostess assisted by Miss Margaret McKee.

Mrs. C. P. Tucker will be hostess at the next meeting in February at her home in Greenwood avenue.

OLD FASHIONED FAMILY REMEDY FOR COLDS, GRIP AND PNEUMONIA

Father John's Medicine Builds New Strength During the Getting-Well Stage After Illness.

A Doctor's Prescription. Free From Alcohol and Harmful Drugs—70 years in use.

The getting-well stage of grip is the most dangerous of all because the weakened body is wide open to attacks of other lurking disease germs.

That is why all the organs of the body must be kept in their best working order, not only to drive out the poison left by the grip germ, but that the patient shall regain strength as soon as possible to avoid further attacks resulting from the poisons in the system.

Father John's Medicine builds up the body because it is all pure wholesome nourishment and free from harmful drugs or alcohol. Father John's Medicine has had 70 years' success for colds, and throat troubles, coughs, and as a tonic and body builder.

Coasting Crash Victims Show An Improvement

Condition of all three victims of the coasting accident Wednesday evening on the old East Brook road near Graceland cemetery was improved today, according to the authorities of the Shenango Valley hospital.

James H. Mayberry, whose injuries were known to be serious from the first, still remains in a critical condition, the hospital authorities state, but there were indications of a change for the better this morning.

Mrs. George Mitchell, who apparently took a turn for the worse during the night folowing the accident and remained in a condition throughout Thursday that indicated the possibilities of a more serious nature than found on examination after the accident, was much improved this morning. It is thought that the danger of serious complications is now passed but it will take several days to determine this.

George Mitchell, her husband, who suffered severe but not serious injuries, was also much improved today and indications are that he will be able to leave the hospital in a short time.

Dorcas Chapter Of Wampum Church Has Social Time

Mrs. Clarence Staff received members of the Dorcas chapter of the Wampum Presbyterian church at the home of her mother, Mrs. Hattie Orris of Kay street, Thursday evening.

Special guests included Miss McClymonds of Pittsburgh, house guest of Mrs. R. R. McGeorge; Mrs. W. C. Brown and Mrs. C. F. Morrow. The devotional service was led by Miss Beulah Wilson. A social hour was enjoyed with guessing contests and games as features of entertainment.

A chop suey dinner was served at attractively appointed tables later in the evening. Covers were arranged for 17. Cut flowers formed a colorful decoration. The hostess had for her aids Mrs. A. W. Pettigrew and Miss Beulah Wilson.

Even automobiling might become monotonous if tires did not go flat occasionally.

Hadn't Slept All Night for Seven Years—Wore Hot Water Bottle in Street—Relief Within a Month —Calls MATAMEL Wonderful.

Mr. George Neville, the well known resident of 285 Hancock Street, Bridgeport, Conn., has sworn before Notary Chas. W. Randolph that the following is his true story.

"I am thirty-four years old and have been severely troubled with certain forms of chronic kidney and bladder inflammation. I was disturbed every few minutes, both day and night, on account of my bladder to such an extent that I actually had to wear a rubber bottle in the street.

"I finally tried MATAMEL and almost instantly felt relief. I have now taken this wonderful Mexican sap for one month and consider myself completely well after years of the most agonizing pain".

Are you troubled with pains in the back—tired feeling mornings—lack of energy—dancing spots before the eyes—strange noises in ears or head—dizzy spells—poor appetite—dry, itchy skin—loss of weight—restless sleep—frequent going to bathroom—

If so, why not go right down to the following drug stores who dispense MATAMEL to all sufferers.

MATAMEL, INC., 30 E. WASHINGTON, ST., Also at Albert's Pharmacy, Ellwood City; Mayberry's Pharmacy, Slippery Rock.

Engineer And Fireman Hurt In Derailment

Pair Badly Scalded By Escaping Steam As Engine Topples

(International News Service)

SANDUSKY, O., Jan. 14.—Chas. O'Hare, 45, Columbus, engineer, and James Curry, 36, Columbus, firemen, were seriously scalded when their engine, pulling a Pennsylvana railway passenger train left the track and turned over here today.

Workmen had difficulty rescuing O'Hare, owing to a great volume of escaping steam. His head, neck and shoulders were veritably cooked. Curry's injuries were less serious.

Pittsburgh Thugs Steal Valuable Furs

(International News Service)

PITTSBURGH, Jan. 14.—Thieves who used a padded brick to shatter a plate glass window here early today stole fur coats and neckpieces valued at $9,000 from the window of the William Grabowsky shop and escaped in an automobile, police reported.

Police said the thieves were evidently well versed in furs, as they purposely passed over a number of less valuable pieces to take mink coats valued at $8,000 and a neck piece valued at $1,000.

Chinese Situation Becoming Tense, But British Fail To Act

(International News Service)

LONDON, Jan. 14.—Though the Chinese siutation is reported as becoming more tense each day, the British government is still sitting tight and will take no action until a report has been received from Charge O'Malley on his negotiations with the Cantonese.

The foreign office spokesman stated today that it is absurd to imagine that Great Britain will give up any concessions in China, and furthermore it was stated that all treaty powers are agreed that there can be no repetition of the Shanghai and Hankow rioting.

Following the line of least resistance is what makes rivers and men crooked.

Man Is Killed, One Wounded, In Cafe Argument

Argument Over Mexican Situation Leads To Killing, Five Men Sought

(International News Service)

WEST PALM BEACH, Fla., Jan. 14.—One man is dead and another suffering from serious injuries here today following an argument over the Mexican situation.

George Kellogg of Springfield, Mo., died this morning from the effects of three bullet wounds and W. H. Hoffman, also of Springfield, lies in a hospital with a bullet wound in his hip while five other men are sought by the police.

The men were chance acquaintances eating dinner together in a Palm Beach cafe when they entered into an argument on the Mexican situation, police said, which led to blows and then shots. The five men sought escaped from the cafe while a waiter was summoning police.

John Neely Bryan, who died recently at the age of 80 years, was the first white child born in what is now the city of Dallas.

"Steel Guitar" Founder Named

Joseph Kekuku, Former Student At Hawaiian School, Given Honor

GIRL HAS WASHER FILED FROM FINGER

(International News Service)

HONOLULU, Jan. 14.—Credit for the discovery of the "steel guitar" that instrument so typical of Hiawaiian music is given by the Hiwaiian legend and folklore commission to one Joseph Kekuku a former student at he Kamehameha school for boys.

A book on Hawaiian music which has just been published by the commission after several years of careful research states that during the years 1893 to 1895 when Kekuku was attending the Kamehameha schol in this city, guitar playing was very popular among the boys of the institution. One ray as Kekuku was ploying his guitar the idea struck him of trying the effect of a comb placed on the strings. He was delighted with the result and played with his new toy for a time before it occurred to him to try the back of his pocket knife. This second insupiration was even more satisfactory says the commisison's account and thereafter the knife was always used when Kekuku played the guitar. Sometime afterward he asked the director of the school shop to fashion a piece of steel for this purpose, very similar to the steel used now wherever the guitar with steel is played. Kekuku taught his fellow students the new art and it was not long until "steel" music was being heard regularly in Hawaiian concerts.

Viola Maile a five year Haweiian girl placed an iron washer on her finger while playing at he St. Marks school. The compression caused the finger to swell and Viola was taken to the city emergency hospital where the old fashioned soap and thread method failed to accomplished its purpose. Finally she was taken to the Honolulu Iron Works, makers of huge sugar machinery. After placing the washer in a vice a skillful workman sawed the ring without so much as scratching the child's finger.

All races in Hawaii agree on the basic funndamentals of moral conduct, it has ben decided by a commitee headed by E. E. Stafford, director of Oriental language schools public instruction which for some months has been endeavoring to formulate an inter-ravial standard of social ethics for the young people of the territory.

The committee has prepared a code as follows: Obligations: To be honest, ot be loyal, to be just, to be pure, to be law abiding, to honor parents, to show good will to all, to observe sancity of marriage. Dangerous practice. Reading impure literature, viewing unwholesome movies, attending improper dances, undue familiarity between sexes, joy riding and jazz; parties. Virtues: Reverence, respect, truthfulness, kindness, modesty, courtesy, courage, industry, brotherliness. Vives: Idleness, vulgarity, impurity, gambling and intemperance.

MAKING PLANS FOR RECEPTION BY GOVERNOR

(International News Service)

HARRISBURG, Pa., Jan. 14.—The capitol will be closed to visitors next Tuesday between 10 o'clock and 3:30, Senator William H. Earnest, chairman of the inaugural committee, said today.

During these hours only persons who have cards signed by Superintendent of State Police Major Lynn G. Adams will be allowed in the building.

At 3:30 the building will be thrown open for the public reception which Governor John S. Fisher will hold in the main rotunda of the building.

Arrangements also were completed today to take care of the visiting National Guards of whom about 1300 are expected to participate in the parade. Buildings near the capitol will be used as temporary barracks.

Senator Earnest said that notification of intention to participate in the parade continued to come in from civic organizations and that it is yet impossible to estimate the number of persons who will be in line.

A special force today is completing mailing of the 50,000 invitations to the inauguration, which are being sent to individuals.

Lnder a law which has just come into effect in Mississippi the holder of any public office—state, county, district or municipal—is prohibited from giving an appointment or employment to any person related by blood or marriage, within the third degree.

Acids In Stomach Cause Indigestion

Create Gas, Sourness and Pain How To Treat

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not as some believe to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food sours, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestents are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist a few ounces of Bisurated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bisurated Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

Don't Marry Man With Expectation Of Reforming Him Urges Evangelist

A large and interested audience listened to Evangelist Mel Morris preach last night at the First Baptist church on "Mrs. Cain Up-To-Date." After having said a few words by way of explanation on where Cain got his wife, the speaker showed how Cain presumptiously tried to approach God with a bloodless sacrifice and was consequently rejected.

He likened Cain to many today who are denying the atoning blood of Christ and seeking for salvation thru their own works. The terrible effects of sin were dwelt upon at length by the speaker, as he told of the mark which God placed upon Cain. "Every sinner," said the speaker, "is a marked man. "The drunkard, the libertine, the dope fiend, the thief, the pleasure seeker, and every other sinner is marked by his own sin," declared Mr. Morris.

The evangelist then showed that Cain's wife married a man marked by sin and had to share his shame and disgrace all her life. He used Mrs. Cain as a type of the women in this day, who marry unchristian men and frequently suffer because of the unequal yoke and the unholy alliance. All young Christian women were urged by the preacher to marry Christian men. "Don't marry a man with the expectation of reforming him," cautioned Mr. Morris, "for you are not likely to succeed after marriage if you were unable to change him before marriage."

The sermon was closed with a plea for any unsaved husbands or unsaved wives to accept Jesus Christ as their Savior, that the family might be united in the Lord.

The eight sections of the Woman's Missionary Society were the special guests of the evening. Section Number One under the leadership of Mrs. D. W. Nesbit, received first recognition for having the largest number of members present, twenty-one being at the service. Including the two World Wide Guild chapters, there were 107 of the missionary women at the service. Prayer was offered by Rev. H. G. Woodrow. Special music was rendered by the choir.

This evening is Sunday School Night. Mr. Morris will give a Gospel Chalk Talk. A large attendance is anticipated. There will be no service Saturday night. On Sunday afternoon at three o'clock, Mr. Morris will preach on "Samson in the Devil's Barber Shop." All the men's Bible classes of the city have been invited to attend this service, letters having been mailed to all the pastors of the city. Meetings will continue all next week, closing on Sunday, January 23.

CHIEF SITS PRETTY AS JURORS IGNORE CHARGE OF LARCENY

STEUBENVILLE, O., Jan. 14.—The January grand jury ignored the charge of larceny against Ross Cunningham, chief of police of the reform administration here. Cunningham was accused of stealing a battery from a city automobile.

The charge was preferred by Oliver Conley, ousted safety director. Mayor E. J. C. Sander refused to suspend Cunningham pending grand jury action.

GAS BLAST KILLS AGED MAN

YOUNGSTOWN, O., Jan. 14.—David M. Davis, 78, was burned to death in a fire which destroyed his home, 36 Thurnton avenue. The blaze was caused by an explosion of escaping gas, and Davis was caught in the cellar. It is believed he struck a match to find a leak. He was a retired steel worker.

Mexico Stirred By Actions Of Federal Troops

(International News Service)

MEXICO CITY, Jan. 14.—A vigorous denial of Secretary of State Kellogg's recent charges that Mexico was seeking to establish a bolshevist hegemony of Latin America was made today by Foreign Minister Saenz.

As evidence that the Mexican government was not seeking to spread the doctrines of the soviet, Minister Saenz quoted from President Calles' warning to Soviet Foreign Minister Critcherin in 1925, declaring that Mexico would not tolerate the abuse of her hospitality by persons active in spreading propaganda supporting principles to which the Mexican government did not subscribe.

"Nobody can hold Mexico responsible for the acts attributed to her by Mr. Kellogg, because Mexico has had no part in them," Minister Saenz said.

Minister Saenz said Mexico had taken care to deny the unjustified charges against her and that the bolshevism accusation was a new attempt to discredit the country.

Wind To Generate Electric Current May Soon Be Used

WASHINGTON, Jan.1 4.—Farmers may soon hitch up the wind to generate electricity, the agriculture department predicted today.

"The days seem not far distant when many rural homes will have windpower plants for generating electricity," the department said.

A scientific study of wind velocity has been made by the government to aid farmers in this march of progress. It was found that a velocity of ten miles an hour is needed to charge batteries.

"Under average conditions five hours' charging every two or three days is sufficient to keep the batteries in good condition," the department said. "In the tests periods of severals days without sufficient wind for charging batteries were not frequent."

More electricity is used on farms in winter when the nights are longer. During this period the windpower is stronger and sufficient to charge batteries.

Further studies of windpower electricity for rural homes are to be made. The department said that there has been a growing demand for economical and efficient windpower plant.

Mrs. Adda Stone To Install Officers Of Mahoning Review

Mahoning Review No. 98, Woman's Benefit Association, held its regular meeting in the K. of P. hall, East Washington street, on Thursday evening.

Plans were made to have an open installation of the Review officers on Thursday evening, January 27, at which time the public is invited to attend.

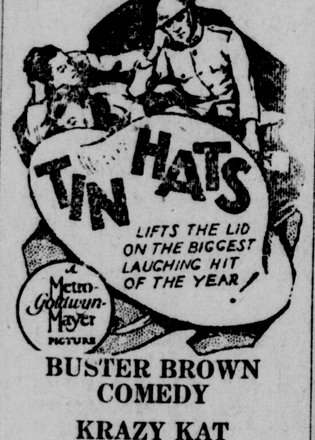

Mrs. Adda Stone of Butler will be the installing officer for the Review. An invitation was extended to the Ellwood City Review to attend.

LICENSE PLATE COLOR DISTURBS OHIO MOTORISTS

CONNEAUT, O., Jan. 14 — Are they black or blue? Meaning the numerals on the new 1927 license tags for Ohio. This question has aroused much debate here.

Official word from Columbus, where the plates are manufactured, gives the colors as dark blue numerals and letters with gray background. Deputy Registrar Jay Keidel confirms the colors. Even with all this "officialeyezing," a majority are inclined to believe that the numerals are black.

The controversy comes from the fact that the enamel used in painting the numerals is so dark as to appear black.

FORMER DRY RAIDER WHO KILLED WOMAN BY STRAY SHOT, HELD

CHARLESTON, W. Va., Jan. 14.—Sam Marlow, former prohibition agent, is held in the Boone county jail at Madison awaiting grand jury action in connection with the fatal shooting of Mrs. A. D. May at Nellis Sunday night.

Constable Clinton Carnes, arrested with Marlow, was released by Magistrate C. F. Hager after a hearing yesterday, and attorneys for Marlow were trying today to arrange for bail in the circuit court.

Mrs. May died in a hospital here the day after she had been hit by a bullet fired at Fleming Ramsey, a boarder in the May home, when Fleming tried to escape arrest by Carnes and Marlow. Her deathbed statement that Marlow fired the shot was not presented in the hearing yesterday.

Marlow was discharged as a prohibition agent last October because of misconduct.

"Little Giant From The South" Upholds Old-Time Democracy

By CHARLES P. STEWART
Exclusive Central Press Dispatch To New Castle News.

Representative Huddleston

(Representative Huddleston has jumped into the limelight by a notable attack on the administration's Latin-American policy.)

WASHINGTON, Jan. 12.—When Representative George Huddleston of Alabama dies or retires from politics the race of Jeffersonian Democrats will have become extinct in Washington.

A few other specimens of the dying species may still lurk in remote fastnesses of the country, but Huddleston is the only one left here.

He's a splendid specimen, too.

It warms the blood of any true believer in what once were Democratic doctrines to hear him speak. In fact, it warms anybody's blood. He's one of the few members of congress who always has a full house whenever he takes the floor.

* * *

"Ah, there's a man who knows what democracy is."

And it wasn't a Democratic lawmaker, either, who said this, as Huddleston sat down after a short talk the other day. It was a

tribute of involuntary admiration for a legislator who speaks from the heart, and the heart of a genuine democrat, at that—with a little "d."

The strange thing is that Huddleston isn't better known. He's known in his own bailiwick, of course and he's known on Capitol Hill as one of the ablest men who comes to Washington, but he doesn't break into the newspapers on a national scale.

Why he isn't of countrywide renown—for his oddity, if not for his quality—is one of the mysteries to me.

* * *

That he's re-elected, term after term, isn't peculiar. In Alabama all Democratic nominees are sure of election.

But how does it happen that he's renominated?

He comes from Birmingham.

Now Birmingham is the center of the industrialization of the south. So far has southern industrialization progressed in recent years that the Republicans are figuring on gaining a foothold in spots where manufacturing has become the predominant influence.

"I'm for absolutely free trade."

Huddleston told me this himself, without a qualifying clause.

He said it in an ordinary tone, but it sounded like a clap of thunder in these times, with the rank and file of Democrats hesitant to express themselves favorably even toward tariff reduction.

* * *

How does Huddleston manage to get himself, not re-elected, which is a matter of course, but renominated?—in a district like his, with the views he holds, and not only holds but voices so boldly.

The only explanation seems to be that his constituents like his nerve.

They also know where he stands—a thing so rare in a politician as to count as a recommendation, perhaps, even to many a voter who stands somewhere else.

* * *

Huddleston looks like anything but a scrapper. He's short and slight, with a gentle face, an upturned nose and washed out brown hair.

He's the picture of a political tenderfoot, every inch.

From appearances, any bully should be able to run over him.

But when he unlimbers his artillery—oh, how he can shoot!

Several "gentlemen" — as they call 'em all in congress—have tackled him in debate and been carried out feet first. They refer to him on Capitol Hill as "the little giant from the south."

Bell And Directors Are Defendants In Restitution Suit

Receiver For Burgettstown Bank Files Equity Suit To Recover $200,000

(International News Service)

PITTSBURGH, Jan. 14.—John A. Bell, aged Carnegie banker, now facing a jail term after conviction on embezzlement charges, together with five others who served with Bell as directors of the defunct Burgettstown National bank, of Burgettstown, Washington county, were named as defendants in an equity suit on file here today at the instance of Benjamin L. Rosenbloom, receiver, the suit asks that Bell and his associates make restitution of losses amounting to nearly $200,000, suffered by the bank when it was forced to close its doors in May, 1925.

The bank, one of those affected when the Bell interests collapsed under investigation, was the victim of mismanagement on the part of Bell and his associates, Rosenbloom charged. Specific charges included a statement that Bell and the other directors purchased mortgage bonds in various coal companies controlled by the Bell interests, contrary to the dictates of sound business.

Those named with Bell, in the suit were T. P. Weaver, Lee R. Scott, W. E. McCurdy, G. S. Pate and Thomas C. Linn.

Alexander Cooper, Pittsburgh associate of Bloom & Bloom, attorneys, of Washington, Pa., filed the suit in the U. S. District court at Rosenbloom's request.

The bill of claims sets forth that the defendants were guilty of acts of negligence in management at various times since 1920. Rosenbloom asked that the defendants be ordered to answer the bill.

Make Attempt To "Throttle" Senate On Rivers Bill

(International News Service)

WASHINGTON, Jan. 14. — An "unheard of" movement is afoot to "throttle" the senate from further consideration of the $71,000,000 Rivers and Harbors bill for fear that opponents will "filibuster it to death," Senator Willis (R) of Ohio, charged today.

Conferees plan, Willis said, to attempt to have the bill signed into law without submitting a conference report to the senate.

Ford-Dodge Feud Is Revised On Witness Stand

(International News Service)

DETROIT, Jan. 14.—The Ford-Dodge feud which flared up before John F. and Horace Dodge forced Henry Ford to divide the gigantic profits of the Ford Motor company with stockholders, became part of the record today in the hearing of the government's suit to recover $34,000,000 from former Ford stockholders.

Percy S. Talbert, of Washington, former deputy commissioner of Internal Revenue, was today's star witness. He testified that in 1919 the late James J. Brady, then collector of internal revenue in Detroit, visited the Internal Revenue bureau at Washington and explained that " a bad situation exists in Detroit due to the feud between Henry Ford and the Dodge Brothers."

Strange Law Point Invoked For Holmes

(International News Service)

LEAVENWORTH, Kas., Jan 14. —A strange point of law is involved in an effort now being made to obtain the release from the federal penitentiary here of a prisoner known as "Ducky" Holmes convicted nearly 20 years ago of the murder of a woman in Washington, D. C.

He was sentenced to be hanged but after several women's organizations had petitioned against the hanging President Taft commuted the sentence to life imprisonment.

Now Holmes seeks relase on habeas corpus procedings, contending that he President lacked the constitutional right to commute the sentence except on petition of the condemned man. Holmes made no request that his hanging be stayed he declares. If he had made such a request, habeas corpus proceedings could not be sustained. The papers in the case have been misplaced.

Federal Judge John Pollock will hear the case soon. Holmes has always maintained a good record as a prisoner.

Dramatics Class Presents Second Scene Of Play

Student At High School Witness Another Part Of "The Charm School"

Some time ago a social function occurred at senior high school which was pronounced an absolute success. That was the senior-sophomore reception, and no small part of the evening's entertainment was contributed by the dramatic class presenting the first scene of act two of "The Charm School". Doubtless some went home wondering what was next. Now they know, for the class presented the second scene in chapel Thursday morning, January 13, to an appreciative audience.

Several points of interest stand out in connection with this performance. First, it presented several members of the class who had not yet demonstrated their dramatic ability to the public. Second, it cast several favorites in parts rather different from those they had formerly played, providing their adaptability. Finally, it revealed an increasing deftness, a lightness of touch, in the acting which steadily leads from the amateur toward the professional in its effectiveness.

Allen Haid as Austin Bevans, principal of the girls' school, developed a dictatorial manner which brooked no interference. However, Bob Turner as George Boyd, in love with Mary Lou Shallenberger (Virginia Reeher) and jealous of his chief, was too desperate to be impressed by any man's dignity. Mary Lou was as determinedly sentimental as the proverbial girl in her teens, and drew about her a band of irrepressible conspirators in the persons of the other pupils in the school, these parts being taken by Betty Houston, June Wolheter, Sylvia Martin, Martha Muse and Julia McClenahan.

The associates of the thoroughly modern principal, played by Theodore Costele, George Reynolds and Charles Knobloch, were effective conspirators as well, and so the merry plot progressed to the point where Mary Lou runs away.

Barbara Bratschie as the bleak and stern Miss Hayes, who regrets ever allowing the disrupting masculine element to enter her school, was as effective as usual, and Rosalind Ehrlich as Miss Curtis, the secretary, developed an arresting stage presence and a voice of pleasing richness.

Those who witnessed this performance realized that the dramatic class is making steady progress in the art of acting, developing versatility in the various types of pla to be presented in the course the year.

Chrysler Once More Center Of Attention At Auto Show

New And Distinctive Body Types, Forcasting Motoring Styles Of Tomorrow, Win Enthusiastic Comment In New York Exhibit

NEW YORK, Jan. 14.—Foremost among the host of new cars and new features placed before the throngs which jammed the Grand Central Palace, as well, as the special exhibits at the huge uptown hotels and the distributors' sales rooms during Automobile Show week, once again Chrysler focused the major portion of attention upon itself.

Refinements in engineering and manufacturing which the motoring public has come to expect from Chrysler were almost eclipsed by the sensational new treatment of body styles and coloring, shown for the first time by this manufacturer.

One of the most sensational of these novelties was the Chrysler Imperial "80" Sport Phaeton. Unusually striking in its color combination of black and Burmese blue, with striping of Italian cream, this model readily gained the hearty approbation of all who saw it. Upholstery is of dark blue, hand buffed Spanish leather. Six black wire wheels, with nickeled rims, with the two spare tires mounted in wells in the front fenders, are standard equipment. The top is of the disappearing skeleton type, so constructed that it can be folded back and booted in conventional manner, or stowed completely away in a compartment back of the front seat. The streamline effect of the body lines is emphasized when the top is hidden from sight.

Still another Imperial "80" body type that held the interest of the crowds was the newly announced Standard 5 passenger sedan at $2675 f. o. b. Detroit, the lowest priced enclosed model on this chassis. This car is done in Haig green with Italian cream striping.

On the "70" Chassis two new body types were also presented—the new four-passenger coupe at $1595; and the Cabriolet at $1745, both prices f. o. b. Detroit. Both of these are entirely new body styles in this price field for Chrysler and, judging from the comment, are bound to prove as popular as did the Chrysler Brougham and Roadster types introduced in other years.

Probably no single body type attracted such attention among the lower priced sixes than did the new Chrysler "60" two-passenger coupe, with rumble seat, priced at $1245 f. o. b. Detroit, which also made its debut at this show. There are many who believe that this model should prove to be one of the most popular cars in the entire Chrysler line, because of its appeal to those of small family, as well as those who desire a second car for personal transportation. This car is in Wills green, with flamingo carmine striping, upholstered in mouse gray mohair, and leather rumble seats to match the body colors.

Still another surprise was the announcement and showing of the landau-sedan on the Chrysler "50" chassis, priced at $885 f. o. b. Detroit. This car is finished in Armory Green, with Haig green and gold bronze trim and striping, and upholstery of silver-gray mohair.

Cadet visors, with military front, which Chrysler introduced with the new "70" several months ago, are now being generally used with slight variations on all Chrysler models, giving them a new and refreshing trim smartness of appearance. Smaller wheels on all models also emphasize still more the lowness of body line which has been so characteristic of Chrysler from the beginning.

Old Poor Farm May Be Landing Field

City council today adopted a favorable attitude toward the suggestion of the Perry S. Gaston Post, No. 340, American Legion that it set aside a portion of the municipal farm for an aviation field. However, solons expressed the opinion that there is no part of the farm large and level enough to meet requirements demanded by the government.

Council filed the suggestion, which was in the form of a communication but promised to give further consideration when council has had time to thoroughly investigate the proposal.

The communication from the Legion asked that the flying field be encouraged by the city. The letter pointed out that ground at the Municipal farm may be suitable.

"I am glad that the Legion is interested in this project," said Councilman Genkinger. "I believe that, in the future, a flying field, or landing place for planes, will be essential."

Councilman Davies suggested that the city offer to the government the necessary plot of ground.

Expressing himself as being favorable Councilman Tyler said he had already made a slight investigation of ground available but said council should first determine if it has sufficient level ground in order to interest the government in making a landing field here.

"According to my understanding the plot must be at least 2,000 feet square and level. I do not believe we have that much level ground. I am interested in this proposal and have been also looking around for other available sites but at this time I do not know of one."

Councilman Genkinger told colleagues that he had a copy of the requirements for a field. The booklet has been issued by the government.

"We can take this matter up and consider it in committee even though we will file the communication now," said Councilman Burns.

Mayor Dunlap did not attend council meeting today but probabilities are that he would also favor offering the plot, if it's suited, to the government.

Youth Sentenced To Three Years For Burglary

Robbed Home, Stopped To Write Love Letter And Was Captured

(International News Serv!
PITTSBURGH, Jan. 14.—Writing a love letter resulted disastrously for William Landers, 21, of Scott Haven, in criminal court here today.

Landers was sentenced to one and a half to three years in the workhouse by President Judge John A. Evans. It was testified that he entered the home of R. H. Parkins, of Mt. Vernon, Elizabeth township, on September 22, and fitted himself with a new suit and top coat, cooked himself a meal and then wrote the love note.

He lingered a little too long over the note and Parkins, approaching his home noticed a light burning. Suspecting robbery, Parkins summoned a policeman and Landers was arrested walking away from the place. Landers wrote the note to the girl to whom he was engaged but her name was not brought into court.

He pleaded guilty to the burglary charge.

ORDERS PROBE IN FUR UNION WORKERS UNION

(International News Service)
ST. PETERSBURG, Fla., Jan. 14—A sweeping probe directed to rid the ranks of the international fur workers union of New York City of its alleged communistic leadership was authorized by the executive council of the American Federatino of Labor in quarterly session here today, following submission of a report of a special committee charging corruption of New York police and the district attorney's office, hints of "graft" on the part of communistic leaders in the union and open opposition to the principles of the federation.

The charges against the officials were brought before the council by Matthew Woll, fifth vice president of the American Federation of Labor, who headed the committee making the probe.

Ferryboats Crash, Damage Is Slight

(International News Service)
NEW YORK, Jan. 14.—The ferryboats Youngstown and Pittsburgh, crowded with commuters, collided in a heavy fog in the middle of the Hudson river today.

The ladies' cabin in the Youngstown was partially stove in, and the passengers thrown into a panic, but the vessel was able to make its pier without assistance. The Pittsburgh apparently suffered no damage of a serious nature.

Mrs. Anna H. Evans Dies In Hospital As Result Of Burns

Passes Away Thursday Afternoon After Terrible Accident Of Four Weeks Ago

Mrs. Anna Harris Evans, wife of Arthur Evans of Woodlawn, died in the New Castle hospital Thursday afternoon January 13 as the result of burns she sustained in a gasoline explosion at her home about four weeks ago.

Although Mrs. Evans was terribly burned some hopes were entertained for her recovery until a few days ago when her condition became worse.

She was among the best known and highly esteemed women both of New Castle and Woodlawn, having lived in this city for many years previous to going to Woodlawn. Gifted with a beautifully personality she had won a wide circle of friends to whom her death brings the deepest regret.

Mrs. Evans was born in Wales October 18, 1882, a daughter of Mr. and Mrs. David Harris. She came to this country when a small child with her parents. She was a member of Trinity church, Musical club of Woodlawn and the Maccabees lodge.

Besides her husband she leaves two children, Verwig and Harris, her parents of East Washington street, this city and three brothers, David G., Mont A. and Harry G. Harris, all of New Castle.

Funeral services will take place Saturday January 15 at 2 p. m. from the home of her brother David G. Harris 210 Garfield avenue, with Rev. Philip C. Pearson officiating. Burial will be made in Oak Park mausoleum.

This wasn't the girl he'd married

HE WOULDN'T have believed so short a time could make such a shocking difference. What had happened to break her health—to steal that glorious vitality? Gone was all her old-time charm. . . . Why, she was old! She who had every right to be young!

Many a man and woman worries as youth and freshness fade. What a different story if they but realized how constipation wrecks health and vigor. Steals charm. Speeds the aging years! For no one need suffer from constipation. Kellogg's ALL-BRAN is guaranteed to relieve every case — safely, permanently, promptly!

Why part-bran can't do the work

Doctors recommend ALL-BRAN because they know it takes ALL-BRAN—not a part-bran product—to produce results.

Here's what happens: ALL-BRAN absorbs moisture and carries it through the digestive system. And it gently distends the intestines—removing poisonous wastes naturally! ALL-BRAN is all bulk—which is why it produces complete results. In a part-bran product the quantity of bulk is so small that there is seldom enough to be effective.

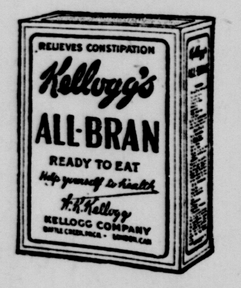

Good-bye to dangerous pills

How different from habit-forming pills and drugs that become worthless unless the dose is constantly increased—and often cause serious injury!

ALL-BRAN is delicious with milk or cream—and add fruits or honey, if you like. Let it soak a few moments to bring out all its nut-like flavor. Use it in cooking. With other cereals. Try the recipes on every package. Eat two tablespoonfuls daily—in chronic cases, with every meal.

Be sure to get genuine Kellogg's—the original ALL-BRAN. Don't take chances with a part-bran substitute. Sold by all grocers. Served at hotels, restaurants. On dining-cars. Made by Kellogg in Battle Creek.

Eat ALL-BRAN in accordance with directions on the package. If it does not relieve any case of constipation—we will refund your money. ALL-BRAN has to produce 100% results to stand a guarantee like that.

Kellogg's ALL-BRAN

700 MINERS IDLE WHEN TIPPLE NEAR WHEELING BURNS

WHEELING, W. Va., Jan. 14.—Seven hundred men were thrown out of work and damage estimated at $75,000 was caused by fire which destroyed a tipple of the Elm Grove Mining Company at Tridelphia, a suburb. The fire was discovered by Frank Campbell, night watchman, and before fire companies arrived, the tipple was destroyed.

Seventeen men were in the mine during the fire, but were not aware of the blaze until the power went out of commission. They escaped injury. The fire is believed to have been of incendiary origin. State fire marshals were notified and are investigating.

The more brazen the chap who asks for a loan, the less your chance of getting your money back.

New Postal Rate For Air Mail To Soon Be Effective

Post Office Department Receives Information On New Rates Of February

Commencing with February 1 the new rate for air mail will go into effect when all matter sent by air mail will be sent at the rate of 10c for each one-half ounce or fraction thereof according to word received at the local postoffice from the Postmaster general.

The zone system which has been in vogue for some time by which it cost three times as much to send a letter by air mail fo San Francisco as it did to Chicago has been done away with entirely and now the same rate will apply to any station of the air mail route and also letters for foreign points are also carried to the port at the same rate of 10c per one-half ounce or fraction thereof.

The New Castle postoffice reports that the amount of air mail sent from here is small, not totaling more than 250 pieces a month. The reason for this is likely because New Castle being so far from an air mail station there is little advantage of sending letters by air mail unless it is for some place on the Pacific coast as letters by the regular railroad routes will reach Chicago and New York and nearby points quicker.

Those who wish to send by air mail either secure air mail stamps or placing the right amount of postage upon the letter by regular stamps it may be sent, but in either case the words 'by air mail" should be written across the face of the letter.

Mail intended for the air mail route west must be closed at the postoffice at New Castle at 7 a. m. to catch the air mail leaving Cleveland at 2:20 p. m. and at New Castle at 11 p. m. in order to catch the air mail leaving Cleveland at 4:30 a. m.

New Treaty Between Italy And Albania Causes Balkan Stir

CONSTANTINE TEPHANOVE
International News Service Staff Correspondent

SOFIA, Jan. 14. — The political situation in the Balkins has rapidly changed as a result of the recent conclusion of a treaty between Albania and Italy.

The extent of this change is nowhere more marked than in Belgrade, where it is now being openly charged that Bulgaria too is a secret party to the treaty.

The grounds for this assertion would seem to be the recent visit to Sofia of the Albanian Minister to Turkey and the recent conclusion of a pact between Bulgaria and Turkey, which, although commercial, reveals the friendly relations between the two countries.

I was informed on high authority, however, that the Bulgarian Government has no desire to enter into such an alliance which would render her position even more precarious than it is at the present moment.

It is the Macedonian population who are expressing elation at this latest pact, inasmuch as the Serbian grip in the Balkins will naturally weaken. Reports are already current that the Montenegrin Nationalists who are mostly congregated in Italy, have begun to show activity, while Greece is also displaying satisfaction at the new treaty.

All this amply goes to show that political feelings in the Balkins are now much changed, and that no one can tell what this new turn to affairs may bring. Some fear an outcome which may cause a serious conflict, and possibly war.

What is certain is that from now hence Italy and Jugo-Slavia are the worst foes, and that Italy will always be able to terrorize Belgrade by playing the Albanian Bulgarian danger.

Cold Weather Is Blow To Drilling In Oil Fields

(International News Service)

FRANKLIN, Pa., Jan. 14.—The winter season has hit the oil drilling in the Venango fields a knockout blow. Winter conditions coupled with the recent price cut of crude oil to $3.05 has caused activity to be halted until spring.

Independent operators are hoping for a 25 cent price advance which will make it profitable to resume activities in the spring. There has been no increase in the crude oil market since February, 1926, when a 25 cent rise put the price at $3.80. Every change in the market since that time has been on the decline.

Big German Film Company Runs Into Financial Debauch

(International News Service)

BERLIN, Jan. 14. — Financial troubles of the biggest German film concern, the UFA, have stirred quite an amount of comment concerning the reasons of these troubles. Several nationalist papers attribute them to the fact that American film capital cut the Germans' throats as soon as it had gained a footing in the German film business.

Many critics fear that the end of German film production is near and that the German market will be flooded with American products.

The UFA is making every effort to get over the present crisis. It has already achieved a general centralization and rationalisation of her plants and studios, which is expected to lower the costs of the administration and production.

Prague Accepts Subway Program

(International News Service)

PRAGUE, Jan. 14.—Headed by the Mayor, M. Baxa, the municipality of Prague has practically accepted a scheme for underground electric railroads.

Numerous offers have been made both by American and German financiers in the past few years to float similar concerns; but there has been considerable opposition to the idea of using foreign money in city enterprise.

The outlying inhabitants welcome the scheme with enthusiasm because, until now, street cars have been their only means of transportation. It is estimated that 44,000 passengers will be transported in one hour by the new system at the busy hours of the day, and that there will be a minute service of trains, travelling at 17 miles per hour.

Makes Plans For Distance Run Of 1,380 Miles

ATLANTA, Jan. 8.—John J. Seiler, the "Flying Yank" will attempt to set a new world's record when he will start a long distance run from Danville, Va., to Miami, Fla., a distance of 1,380 miles, in 20 consecutive days, beginning January 10.

Seiler plans to make about 70 miles a day, beginning at 6 o'clock night in whatever town he finds himself. He will be accompanied on the run by a representative of the Miami Chamber of Commerce and the Atlanta Georgian, who are sponsoring the run.

The route to be followed includes: Danville, Va., the starting point; High Point, Charlotte, Spartansburg, Greenville, Anderson, Ga., Atlanta, Griffin, Jeffersonville, Alma, Jacksonville, Fla., Orlando and Miami.

Among the records made recently by Seiler are: Washington to Richmond, 137 miles in 28 hours, 57 minutes; Macon to Atlanta, 104 miles in 17 hours, two minutes; each morning and stopping for the Athens to Atlanta, 78 miles.

The Missing Ingredient

If you possessed the time-proven Heinz Ketchup recipe, and followed to the letter the many minute directions, there still would be one thing lacking—*the 57 years' experience that belongs only to Heinz.*

Heinz develops the seed, raises the seedlings, supervises the growing of the tomatoes—every step is a Heinz step—every bottle of this world-known condiment is truly "Heinz" *from the ground up.*

That is why it is *always* so good—why it gives to even the best of foods that *added* zest which says *"It's best."*

Silverware Given Model Apartment

At the model apartment of the Benjamin Franklin Junior High school a very useful and beautiful gift was received when Jack Gerson presented a set of Rogers Bros. 1847 silverware for use in the apartment.

The silverware is the beautiful Ambassador pattern and is attractively engraved with the initials B. F. J. H. The set consists of one dozen each of knives, forks, salad forks and butter spreaders, two dozen teaspoons, two sugar shells, one gravy ladle and one cold meat fork.

The gift is greatly appreciated, as any guests who come to the school are usually entertained in the model apartment. Until this year it has been rather difficult to arrange an attractive table because of the lack of desirable equipment, but this gift of Mr. Gerson, together with the set of dishes given last fall by the Shenango Pottery Company, makes it possible to arrange a very pleasing table.

Probably few people know that Lord Portsmouth, the "Rancher Earl", who lived in Wyoming before he succeeded to his title several years ago, added the word "wallop" to the dictionary. One of his ancestors was Sir John Wallop, a British soldier of distinction. Sir John inflicted some heavy defeats on the French in the old wars, and thus arose the phrase, "Let's wallop them".

What are you going to do with that Christmas money gift?

THAT money gift you got for Christmas—why not spend it on something that will give you pleasure and entertainment for a long time? There are many beautiful models of the new Orthophonic Victrola, at a wide range of prices. Come in and let us help you make your selection. You will always be glad you did!

CASTLE COUNCIL SHOWS PROGRESS

Castle Council No. 365 of the Junior Order United American Mechanics completed their successful drive for new members. Seventy nine new candidates were given the degree work. The closing program of entertainment consisted of boxing bouts, music, speeches and lunch.

Plans for the participation in the 3,000 new membership class to be held in the Memorial hall at Pittsburgh during the month of March were talked over. Also plans for a big athletice night and minstrel show were considered.

Preparations are now being made for the fourth annual Washington's birthday banquet. This banquet is one of the highlights of the social life of the Juniors. National state and county officers will attend this banquet.

On next Wednesday evening a dance will be given for the members and their friends in the K. of P. hall.

During the past year just ending Castle Council has made rapid strides toward their goal of 1,000 members and from the present outlook for 1927 it will be their banner year.

New British Law To Aid Film Men

(International News Service)

LONDON, Jan. 14. — It is now certain that a Bill to give assistance to the British film industry will form part of the parliamentary.

Its precise form will not be of the orginal suggestion—of putting a heavy duty on imported films with a Preference for those from the Dominions. It is more likely, on the other hand, to make it compulsory for every film renter to book a certain fixed percentage of British-made films.

It is believed that this quota would increase the competition among the renters for the best and most marketble British films, thus encouraging good British production.

One clause in the Bill will make it illegal to "book" a film before it has been shown at a trade exhibition in this country. The object of this is to check the method whereby British exhibitors are compelled to contract for foreign films which they have not seen.

The Bill will certainly become a law before next midsummer.

EAT ORR'S TWIN LOAF OR HOT BREAD.

The citizens of New Castle may be proud that they have in their city a plant such as **The O. C. Orr Baking Co.** A visit at this plant assures you that **Orr's Twin Loaf and Hot Bread** are produced with modern methods and under sanitary conditions. **HANDY SERVICE STORES** are supplied twice each day with fresh bread from this New Castle Plant.

If you want fresh bread and clean food, buy **Orr's Twin Loaf or Hot Bread** that is delivered direct from the ovens to your **HANDY SERVICE STORE.** Spend your money for a New Castle loaf of bread that is not shipped from distant cities and allowed to lay around in express cars and railroad platforms in unsanitary conditions.

This plant is a member of the Quality Bakers of America, not because they wish to be, but because the Baking Industry has elected them to be such from producing quality bread.

Jacksville

About 35 ladies enjoyed the all-day meeting of the Jacksville W. C. T. U. at the home of Mrs. Miriam Grossman at Moore's corners on Thursday. The program carried out was arranged by Mrs. Nellie Studebaker, superintendent of sailor and soldier work. The day was spent at sewing except a short program in the afternoon. A tureen dinner was served by the social committee at the noon hour. Visitors present were Mrs. Harbison, county vice president; Mrs. Foringer, Mrs. Morgan and Mrs. Headland, all of Butler; Mrs. N. L. Gardner, former local president, and Mrs. Homer Gardner of New Castle. On February 3 Mrs. Nellie Studebaker will entertain the union.

Mr. and Mrs. H. W. Cooper expect soon to leave for Florida. Mr. and Mrs. John Wimer expect to reside in the home while the Coopers are away.

F. J. McCleary and son, James, were recent Slippery Rock callers.

R. E. Glenn of Slippery Rock was a recent business caller in this vicinity.

Orange Studebaker and family were callers at the New Castle hospital to visit their daughter, who recently underwent an operation for appendicitis.

Mr. and Mrs. Forest Wimer of Cleveland, O., formerly of this place, announce the birth of a son, who has been named John.

Dr. and Mrs. H. L. Sowash have returned to Sandusky after spending some time with numerous friends in this locality.

Several men with teams have been busy this week moving a drilling rig belonging to Willis Pyle of Prospect to the Joe Vosler farm.

Mrs. Jane Studebaker is spending several weeks with her son and family, Dr. Studebaker, at Slippery Rock.

(International News Service)

SEATTLE, Jan. 14. — Alcoholic deaths in Seattle for the year 1926 were the same as in 1925, according to Dr. E. T. Hanley, city health commissioner, who issued a scathing denouncement of bootleggers who are flooding the market with poison liquor.

"Thebootlegger who sells redistilled denatured alcohol under the guise of whiskey is a potential murderer," Dr. Hanley said. "If one of their victims should die, the seller should recieve the extreme penalty."

In 1925, Dr. Hanley showed, twenty-five persons died in the city from alcoholism, and this figure will not be lowered this year.

Sentence Sermons

By Rev. Roy D. Smith, D. D.

IT IS NOT SAFE—

To judge a man's worth by the car he drives.
To call a home happy, because the house is luxuriously furnished.
To say he is a good doctor because he has a lot of diplomas.
To accept all of any man's opinions without questioning.
To call any man a fool until we have enough facts to prove the case.
To trust any party in power without watching.
To judge a man by the family he is born into.

Slippery Rails Cause Accident

(International News Service)

WILKES-BARRE, Pa., Jan. 14.—Slippery rails, it was indicated today, were responsible for the peculiar street car accident at Larksville which hurt 16 persons, one seriously, last night.

Two cars were nearing the top of a hill when one evidently got beyond control, crashing into the other. This started the two down the half mile grade on a wild trip which was ended when they crashed into two standing trolleys. A fifth one with 80 passengers escaped when the motorman threw the trolley in reverse just a few seconds before the final impact.

Miss Helen Gorok, the most seriously injured, was hurt internally, it was feared.

How conscience-stricken the old-fashioned mother felt if she forgot to worry for an hour or two.

South Africa Now Staging Beauty Show

Charleston Dance Rages Throughout Southern Africa Now

(International News Service)

CAPE TOWN, Jan. 14. — When South Africa gets a craze it gets it badly.

Capetown for the moment is in the throes of a beauty competition, and in this the claims of the Charleston have been forgotten. The latter craze—some South Africans call it a complaint — will burst forth again when the beautiful "Miss South Africa" goes back to the obscurity of the telephone exchange which employs her.

But Johannesburg is Charleston mad, and business men are finding it difficult to persuade their stenographers to forget it long enough to do a little work.

So desperate have they become that a ban on the dancing of the Charleston in business hours has had to be enforced in several of the bigger business houses owing to the increasing habit of stenographers and others practicing the dance in idle moments, or moments which ordinarily should not be idle.

In several stores notices threatening dismissal have been posted up, while one music-selling firm offers a hint to customers as well by a notice which says, "No Charlestoning, Please."

"All the girls seem to be stricken with the Charleston disease," said the manager of a big department store. "Whenever I look there are girls kicking their legs out, bending their knees, and performing all kinds of contortions."

One famous girls' school in Capetown has issued a notice threatening heavy penalties on students dancing the Charleston.

Bandits Get $2,300 In Erie Restaurant

(International News Service)

ERIE, Pa., Jan. 14.—Beating Maurice Baker, proprietor of a restaurant here, into submission last night, two bandits obtained $2,300 in loot, consisting of two diamond rings and about $1,500 in cash. The gunmen entered Baker's and while one of them covered four persons sitting at tables, the other beat up Baker, robbed him and then escaped.

Mrs. Harrison Is Granted Divorce

(International News Service)

PARIS, Jan. 14.—The Seine tribunal has granted a divorce to Mrs. Francois Burton Harrison, the former Salena Elizabeth Wrentmore.

Harrison was formerly governor-general of the Philippine Islands and his marriage to his present wife, who is considerably his junior, occasioned considerable comment in social circles.

Boy Jumps From Machine On Way To Hospital

P. C. Kelly of 728 Cleveland avenue, reported to the police Thursday that he was driving his machine at Mill and Washington streets, when he struck a newsboy.

Mr. Kelley picked the boy up and went to a doctor's office with him. The doctor was not in and Mr. Kelley started with the boy for a hospital.

The boy jumped out of the machine and ran away in spite of the efforts of Mr. Kelley to catch him. He was apparently not injured.

Hazel Walker of 1003½ Moravia street, reported Thursday that she had her machine parked in front of her home, when the car of J. J. Golis of 1701 South Jefferson street, ran into and damaged it.

Awarded $10,000 For Bite Of Dog

PHILADELPHIA, Pa., Jan. 14.—William Massinger was given a verdict of $10,000 by a jury before Judge Ferguson in Court of Common Pleas, No. 3, yesterday, for injuries inflicted upon him by a collie dog owned by Ethel, Rebecca and Anna Levy.

On August 23, 1925, Massinger entered the drug store conducted by the three defendants at the corner of Eighth and Poplar streets for the purpose of making a purchase. The dog sprang upon him without warning and bit him in the groin, inflicting such severe injuries that he was confined to the Jefferson Hospital for four months and compelled to undergo a surgical operation.

Man And Son Both Killed In Scuffle

Shot While Older Tries To Prevent Younger's Suicide

GALLIPOLIS, O., Jan. 14.—Two men were dead in a farm home near West Union, Adams county, 40 miles north of here, because one is believed to have tried to keep the other from committing suicide.

Authorities are trying to establish whether Ralph Knauff, 32 years old, killed his father, Michael, 72 yars old, and then himself, or whether the deaths of both were accidental, the result of a scuffle to get a gun from the son.

Ralph's widow, the only witness, was so overcome by the tragedy she could not recall to police just what happened. She stated her husband had been drinking and, obtaining a revolver had threatened to kill himself. The father, a prosperous farmer, came into the house as Ralph was about to carry out the threat of suicide. A struggle ensued and seven shots were fired. A moment later, Mrs. Knauff said, she opened her eyes, to see both men on the floor dead.

Novelist Says 30 Is Beginning Of Happiest Age

WASHINGTON, D. C., Jan. 14.—The best age for men and women is from 30 on, according to Mollie Painter Downes, brilliant young novelist. She writes:

"You are then out in the sunshine, past the funny little twilight world of childhood.

"I do not think the business of growing up is particularly happy. Things are able to hurt you so easily. You are self-conscious, violently sentimental and ready to soak up impressions like a sponge. You are so thin-skinned that you find slights where none was intended and you become morbid on the subject of yourself."

Allegheny Closed By Thick Ice For Seven-Mile Stretch

FRANKLIN, Pa., Jan. 14.—From a point a mile north of Kennerdell to a mile south of East Sandy the Allegheny river is frozen over. In some places the ice is eight to 12 inches thick near the shore. It is the first time this year that a seven or eight-mile stretch of the river has closed in. The river stage at Franklin has fallen to 1.4 feet and still is receding. Some slush ice is running.

It makes some difference whether a woman is talking to her husband or talking at him.

A BESPECTACLED FELINE

PARIS, France, Jan. 14.—What is thought to be the only bespectacled feline in Paris if not in the world, is a pet cat owned by a watchmaker living in the Latin quarter. The cat spends his days about his master's shop never appearing without his spectacles, and lends a profsessional atmosphere to the place. The cat was fitted with glasses by its master.

Present Play In Koppel Theatre; Fine Success

KOPPEL, Jan. 14.—"The Road to the City," a comedy in four acts, was given by the Ladies' Bible class of the Koppel M. E. church at the Koppel theatre Monday evening.

The play was a huge success and the theatre was crowded by an enthusiastic audience. The director of the play, Mrs. William Blythe, has been highly congratulated on her fine work. The hit of the evening was made by Gladys Burkert, who took the part of Jud, the farmer boy. But every one who took part is to be congratulated for the fine production they presented.

The play will be given again at the Wampum theatre on Tuesday, January 25.

Besides the play there is good orchestral music and after the third act a vocal solo is rendered by Agnes Blythe.

The cast of the play follows:

Jet Sanderson—Mrs. C. Mount.

Robert, a country doctor—Mrs. H. Asper.

Richard, a jewel thief—Mrs. W. Foulker.

Lady Lil, a jewel thief—Mrs. W. Patterson.

Duke, the mystery man—Edith Blythe.

Jud, a farmer boy—Gladys Burkert.

Toto, a mischievous lass—Mrs. Skaog.

Marie, Jet's maid—Mrs. Zerby.

Mr. James, old man—Mrs. C. Lanigan.

Mrs. Sanderson, Jet's mother—Mrs. W. Richter.

Statistics Hurled At Club Members

Mrs. Edith Barnhart Proves Value Of Religious Education In Schools

ELLWOOD CITY, Pa., Jan. 14.—Before a large gathering of Rotary club members at their regular weekly dinner meeting in the Presbyterian church Thursday evening Mrs. Edith Barnhart, in a strong talk proved to the members of the club that Religious Education in the public schools is the right thing for Ellwood City.

Surprising statistics were presented, compiled from the time the movement had its birth at a ministerial meeting in July, 1925 until the present time with 279 in the Hartman schools, 195 in the Circle; 156 in the West End and 126 in the North Side.

At the first class meting 15 denominations were represented.

But since that time the idea has progressed with surprising speed in the schools. "By teaching week day religious education in the schools" said Mrs. Barnhart, "we reach many children that would otherwise have no relation with the Bible."

After all, the Bible is the leading book from a literary as well as religious standpoint.

Mrs. Barnhart went on to state that it was not fair to deprive the children of this opportunity to study that great book. In the grades from one to six Bible story books are used. Holidays mean more to the kiddies now than before. A year or two ago Easter, Christmas and various holidays had no religious significance for children, meaning bunnies and Santa Clause, etc., but since the introduction of the Bible into the curriculum all days of the year are taking on a deeper meaning. The Protestant church represents 90 per cent of the pupils enrolled in this week day religious education.

Mrs. Tommasson Is Hostess To Class

ELLWOOD CITY, Pa., Jan. 14.—Twenty-two members of the Hannah P. McDonald class of the United Presbyterian church met last night at which time Mrs. Frances Tommasson of the New Castle road was hostess at her home.

The members read the fifth chapter of the book "The Christian Home." At each meeting a chapter of the book is taken up and discussed informally. Mrs. Douglas and Mrs. Newton were associate hostesses. Concluding the meeting was the serving of a dainty lunch by the hostesses, after which the the class adjourned until their meeting next month.

Sixteen Boys In Kiwanis Troop

Ralph Mains Is Leader Of Baby Scout Troop Organized Last Night

ELLWOOD CITY, Pa., Jan. 14.—Before a representative gathering of members of the Kiwanis club at their regular weekly dinner meeting in the Methodist church a Kiwanis Boy Scout troop was born Thursday evening.

Sixteen of the members came with boys who had expressed a desire to become Scouts and the troop was immediately formed with attendant ceremonies and Ralph Main made Scout leader.

Fred Poister, local scout master gave an appropriate talk on "Scout Work" explaining the duties and accomplishments of the local organization and telling the new troop what would be expected of them in the future.

Church Ladies Enjoy Dinner

ELLWOOD CITY, Pa., Jan. 14.—Forty-two members of the Missionary society of the Trinity Lutheran church enjoyed a 1 o'clock tureen dinner at the church Thursday. The event was the regular monthly meeting of the society, and topic for discussion was "Another Day is Dawning" which was in the nature of a New Years program.

Interesting papers were read by Mrs. Clarence Hollerman and Mrs. John Strohecker. Mrs. Wallace Kerr and Mrs. Clarence Wallace put on a little playlet pertaining to the Missionary magazine, which was well received.

Six new members were taken into the organization and several subscriptions to the magazine. Mrs. Clarence Wallace is organizing a study class to read "The Moslem World," and sessions will begin the latter part of next week. Nine enrolled for this class at yesterday's meeting. Mrs. John Strohecker and her committee managed the social part of the affair very well.

Senators Disagree On Punishment For Daniel Steck

(International News Service)

WASHINGTON, Jan. 14.—The question of how far the senate shall go to punish Senator Daniel F. Steck (D) of Iowa for his admittedly unwarranted attack on Senator-elect Smith W. Brokhart, Iowa insurgent, again occupied a special senate interstate commerce subcommittee today. The sub-committee failed to reach an agreement on its report at three conferences and planned to meet again today.

All three members, Senators Fess (R) of Ohio, Goff (R) of West Virginia and Hawes (D) of Missouri, were agreed on a complete exoneration of Brookhart on the charges that he was a "paid lobbyist" for Cyrus E. Woods, named to the interstate commerce commission, but were said to disagree on the extent of punishment to be given Steck. Rumors were that Steck would be called upon to formally apologize to Brookhart from the floor of the senate.

Husband Held In Death Of Wife Through Neglect

(International News Service)

BROWNSVILLE, Pa., Jan. 14.—Alleged to have forced his bride of six months to leave her sick bed to prepare meals and to have served notice through local papers that he would not be responsible for debts contracted by her while she lay seriously ill in a hospital here Joseph C. Howe, 30 was arrested here today on a formal charge of manslaughter following the death last night of his wife, Fern, 24.

Howe was held on the charge to await a coroner's inquest tomorrow. The charge under which he was arrested by county detectives cited alleged neglect and abuse, with resultant manslaughter.

HARVARD DEAN IS MADE TARGET IN CONTROVERSY

Chicago Lawyers Attack Stand Taken By Dean Of Law School

By FRED J. WALKER
International News Service Staff Correspondent

CHICAGO, Jan. 14.—Dean Roscoe Pound, of Harvard Law School, one of the outstanding legal authorities of the country, was made the target for attacks by leading Chicago lawyers today.

It was the renewal of the perennial skirmish between civil and criminal lawyers over the professional standing of those who defend criminals in court.

"The study of criminal law has been relegated to an inferior place in all the law schools of the country," said Dean Pound. "Practicing attorneys, as a result, except in rare instances, avoid criminal cases if they are men of real ability."

"I consider Dean Pound's statement a grave and magnificent example of ignorance," said attorney Franck McDonnell. "The men who look down on criminal law are the ones who haven't the courage, the talent, or the ability to practice it."

Michael Ahern caustically arraigned Pound's declaration that criminal law had been relegated to an inferior place in law schools.

"The fact that criminal law isn't given its proper place in law schools is nothing for them to brag about," he said. "The reason it isn't is because there are few if any lecturers who have had the experiences or the ability to teach it.

"Furthermore, while I agree that not enough attention is paid it in schools, I will go him one better and say that criminal procedure and constitutional law are neglected outrageously too.

"Lawyers who defend a criminal are upholding one of the most sacred provisions of the constitution; that of giving him a fair chance to protect his life and liberty."

Ahern said that for ten years he refused to touch a criminal case but finally he became convinced it was his duty to as willingly defend a man accused of crime as one whose material affairs were tangled.

Big Japanese Bank Is Opened In East China

(International News Service)

MOSCOW, Jan. 14.—Dispatches from Harbin reporting the establishment of a central Japanese bank in Dairen have aroused apprehension here. Soviet comment interprets the Japanese enterprise as an important step toward the fulfillment of Japanese imperialistic ambitions in the three eastern provinces of China.

The bank is reported to have an initial capital of 100,000,000 yen or about $50,000,000. The Japanese government is said to be backing the project.

Hogs Are Good Weather Judges

WINDSOR, Conn., Jan. 14.—For all that hogs keep their noses to the ground, they keep close tabs on what is going on above. Mankind discusses the weather and seldom knows one day what it will be the next. Hogs do not discuss it at all but can tell by the beginning of the winter how hard and how long the cold season will be.

That, at least, has been since early days the belief of the farmers, who now predict a hard winter and an early spring on the basis of information secured from their hogs.

The "melt" is a fatty protection for the stomach of the hog. When the winter is going to be long and severe, the "melt" is long and thick. This year, according to farmers who are killing hogs for the year's use, the "melt" is unusually thick at the top but tapers off thin, indicating a severe early winter and mild weather toward spring.

LABOR PAPER WANTS CONGRESS TO BE ON THE JOB CONTINUALLY

By CHARLES P. STEWART
Exclusive Central Press Dispatch to New Castle News.

WASHINGTON, Jan. 14. — "Labor," official Washington organ of the railroad brotherhoods, comes out with the suggestion that congress ought to stay in session nearly all the time.

This is entirely a new idea. The usually accepted theory always has been that the whole country breathes more easily the minute congress adjourns. The commonly heard complaint is that when it's on the job it can't refrain from passing laws, that we have too many already and that it would be a mercy if we could go for about ten years without a single fresh piece of national legislation.

"Labor" makes the point that even too many laws are better than letting the executive branch of the government go it alone for too long at a time.

* * *

The attitude of the presidents suggests that maybe there is something in this view.

Never one of them but always has considered congress a first class nuisance. Congress interferes with a president the worst way. Even if he has a big majority in both houses there's bound to be some opposition to him and his policies. It criticizes. It may be able to accomplish no more than that, but at least it makes the chief executive watch his step.

With congress against him the White House tenant's life becomes a burden. Even one of the two houses out of presidential control gums his cards and blocks his game.

* * *

It's noticeable that most big presidential stunts are initiated during congressional recesses or between sessions.

The president can start pretty much anything he pleases when congress is away. He may not be able to finish it by himself, but if he gives it a good enough start the lawmakers may very easily have to keep it going when they get back, or the president calls them back, whether they like it or not.

"Labor" doesn't think any president should be permitted to get so far with some plan he happens to have in mind that congress can't veto it if it thinks he's wrong.

* * *

For instance, congress took only a 10-day recess over the holidays, left supposing everything was quiet along the Potomac, and came back to find marines landed in Nicaragua, warships maneuvering all over the Gulf of Mexico, the Mexican republic in a ferment and most of Latin America more or less by the ears.

If all that could happen during a 10-day congressional recess, what can't happen during the long gap between March 1 and Dec. 1?—until you've explained what you're going to land 'em for."

* * *

What the administration would do right now, if it could, would be to go the present congress to vote money to run the government, not for the next year alone, but for the next two years, or until the end of President Coolidge's term.

Congress can still ask, "What made you land those marines?" but there they are. It would have been a lot more effective if it had been in a position to say, "Wait unless there's an extra session.

He won't be able to manage the 70th congress, for the senate will be against him, but if he doesn't have to ask it for funds, neither will it be able to manage him.

However, this won't happen. It's been hinted, at but the idea didn't "take." Even the 69th senate, which is pretty independent itself.

Portersville

Norman, the small son of Mr. and Mrs. H. D. McClymonds, was badly burned at his home when he upset a pan of hot water.

NEW ROADS EXPECTED TO INCREASE VALUE OF RURAL DISTRICTS

CHICAGO, Jan. 14.—An increase of nearly $2,500,000,000 in the value of rural lands alone is expected to accrue from construction of 55,000 miles new highway systems to be begun this year, declared Charles M. Upham, managing director of the American Road Builders' Association, today on the eve of the organization's twenty-fourth annual convention which opens here tomorrow.

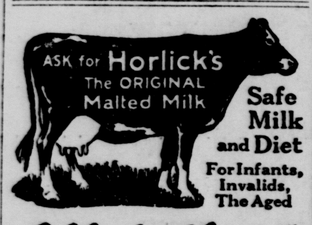

More than 10,000 delegates from all parts of the Nation have arrived for the convention, and the total number of road builders, engineers, Government officials and others expected to attend is 35,000.

Perhaps people say "my bootlegger" because they think they have paid out enough cash to own him.

Put Kick Into "State Beer"

(International News Service)

CARLISLE, Eng., Jan. 14.—The British Government has introduced a new kick in to the "State Beer" which it brews for its semi-teetotal town of Carlisle.

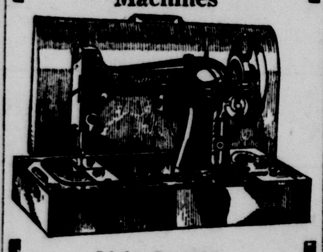

It is known as "winter ale." The idea is that in cold weather a working man needs a drink possessing "body."

So strong is this new ale that the managers of the State inns have been forbidden to serve it in large quantities than a single glass. The Government price is twelve cents per glass.

Points To Perils Of Dry Cleaning Efforts At Home

Nearly everyone realizes that gasoline, benzine, naphtha and similar products are highly inflammable and explosive and should be kept away from an open flame.

There is that unfortunate individual who lights a match to see if his gas tank is empty or uses explosive fluids to start a fire in the kitchen stove, but these are few and far between. Most of the victims of gasoline explosions, however, are those who thoughtlessly use gasoline for dry cleaning in the home, avers the National Safety council. Serious accidents from the use of gasoline, often resulting in fatal burns and heavy fire losses are an almost daily occurrence.

Gasoline is inflamimable, but that is perhaps the least of its dangers. As long as it remains in the liquid state it is comparatively harmless. But at a temperature of 65 degrees or higher it evaporates quickly; the vapor when mixed with the proper proportion of air forms a mixture ten times more explosive than dynamite. A spark will ignite the mixture as easily as a lighted match or a live cigarette butt. The friction of clothes being cleaned may ignite the spark. The vapor may take fire many feet from the gasoline itself. The vapor is heavier than air and remains close to the floor, consequently open windows will not carry it off. To use large quantities of gasoline in a basis or tub indoors is to invite disaster. To use it outdoors is dangerous, but not to be recommended.

In dry cleaning establishments where gasoline is used regularly in special washing machines, all machines are grounded to prevent accumulation of static electricity and the air is kept very humid. Even with all precautions the risk is not entirely eliminated.

Home cleaning should be confined to remove spots from clothing. Gasoline, naphtha and commercial cleaning fluids (many of which are explosive) should be kept in tightly corked bottles. A few drops at a time should be used by holding the cloth over the mouth of the bottle. If more than a pint is kept on hand, it should be stored outside, warns the National Safety council.

War On Rats Is Opened In Vienna

(International News Service)

VIENNA, Jan. 14.—The millions of rats which infest Vienna are to be exterminated as far as humanly possible. Since the war the city authorities have spent no money to keep the pests under control and now even the best sections of the city are rat-ridden.

The city has now appropriated thirty thousand dollars for the task of extermination and has decided to hold a "Rat Week" when all the citizens will be expected to war on the rodents.

HOUSEHOLD HINTS
BY MRS. MARY MORTON

MENU HINT

While figuratively Sunday morning breakfast should be lighter than usual especially if the family dinner is to be a heavy one, literaly, everyone is in the mood to eat more as they have more time and can make a leisurely meal. This is the rule throughout the day and people are likely to overeat on that account. The menu following is planned for Sunday morning breakfast.

Sliced Oranges
Fried Ham — Fried Potatoes
Bran Muffins — Butter
Jelly — Coffee

TODAY'S RECIPES

Fried Ham.

If the ham seems salty, put it in the pan and cover with cold water. Let it come to a boil slowly, then pour off water, add a little lard and fry until done. Eggs may be fried in the ham fat left in the pan, spooning the fat over them until they are done to taste.

Bran Buffins.

One cup floor, one teaspoon soda, one teaspoon salt, two cups bran, one and one-fourth cups milk, one-half cup molasses. Sift dry ingredients and add bran, milk, molasses and egg well beaten. The egg may be omitted.

MENU HINT

Making appetizing dishes of the lefovers is a problem in many households. Shepherd's Pie is one good way to use up meat and mashed potatoes, too. Any kind of meat might be used up in this way.

Tomato Soup — Crackers
Shepherd's Pie
Orange and Grape Fruit Sections in Sherbet Glasses
Sponge Cake
Tea or Coffee

TODAY'S RECIPES

Sherphed's Pie — Chop cold cooked lamb and mix with it left over gravy. Dot the meat with butter, and bake in a casserole covered with hot mashed potatoes, a beaten egg yolk mixed with two teaspoons of cold water, also spread over the lamb. When the potatoes are evenly browned remove from the oven and serve.

SUGGESTIONS

Important Trifles

A nut pick is a handy implement for pulling out basting threads.

Several old stockings sewn together are excellent for polishing cloths.

Do not put pots and pans away with their covers on. Let the insides have a chance to air. If put away covered cooking vessels are apt to retain the odor of the last food cooked in them.

Use Whole Wheat

Brownies and other cookies gain a new delicoiusness of flavor when whole wheat flour is used in their composition. Remember never to sift whole wheat flours. Gingerbread is very nice when whole wheat flour is used. It may be used as dessert served with apple and hard sauce. For the apple mixture use: Three medium-sized, tart apples, three tablespoons sugar, cup seeded raisins, one tablespoon butter.

Pare, core and slice the apples. Cook in just enough water to cover until tender. Pour into a greased baking dish and add the raisins, sugar and butter. Cover with the gingerbread m... Bake 45 minutes in a m... oven 350 to 400 degrees (F... heit.)

For the sauce: One-quart... butter, one egg-white, two... cup powdered sugar, one-ha... spoon vanilla or one tablesp... ange juice.

Preparedness

Prepare as much of your ... dinner as possible in the m... This leaves you free to cha... callers or attend a club m... unworried by thoughts of ... prepared dinner on your mi...

Means a baking powder containing two leavening units — one begins to work when the dough is mixed, the other waits for the heat of the oven, then both units work together.

Custom Of Sending Valentines Ages Old

The custom of sending Valentines can be traced back for several hundred years.

In contrast to the present way of making February 14th, or St. Valentine's Day, the lovers' festival, it was formerly the custom for bachelors and maidens to send each other, usually anonymously, love tokens which contained sentiments expressive of what at that time was called the "tender passion" and embellished with flowers and birds, hearts and darts.

An early day vogue for valentines existed in the most sentimental of all the centuries, the 18th, when people professed to be swayed more by their feelings than by reason. As an example, Hone in his "Every-Day Book," published in 1826, just 100 years ago, records that "200,000 letters beyond the usual daily average annually passed through the second postoffice in London on St. Valentine's Day."

The custom of sending Valentines became somewhat less popular in the eighty's of the last century, not because of any decided change in popular taste or manners, but because it gradually became vulgarized by the issue of comic or burlesque valentines of an offensive kind, issued by certain small publishers.

The present revival which has taken place in the last few years has been very extensive. It has followed the old lines as far as possible, having regard to the advance in artistic drawing and colored printing and for the old purpose—to enable lovers of both sexes to convey delicately their feeling to the objects of their affections.

Valentines of various types are now in great demand. There are humorous ones, quaint ones, comic ones, serious ones — in fact, Valentines to meet every possible taste and desire. Within the last few years the custom of sending Valentines has been extended so that they are now sent to not only lovely ladies, but friends, relatives and particularly, children. There are a host of Valentine greetings especially designed for children. Many kind-hearted people make lists of children in the hospitals, orphanages and in the homes of the poor and on St. Valentine's Day send them a cheerful message.

Radic To Head Peasant Party In New Regime

(International News Service)

BELGRADE, Jan 14.—All the peasants of Jugoslavia have decided to throw their lot together. Under the leadership of Stephen Radic, who has been the leader of the Croatian peasants against the Serbian party of the late M. Pashitch will also champion the cause of the amalgamated landmen.

The new party will be the National Peasants party and is made up of Croatian Peasants party; the Jovanovitch party; the Mongenegro Federalists and the Serbian Peasant Allnance. The party will have about a third of the voting strength of the country.

Seek Substitute For Petroleum

STATE COLLEGE, Pa., Jan. 14.—Researches designed to find a substitute for petroleum got under way in the school of chemistry at Pennsylvania State College, it was announced today.

Dean Gerald L. Wendt is in charge of the research work which was made possible through the American Petroleum Institute, which has $500,000 available for a five-year research program.

COUNTY DRY AGENT SELLS 300 PINTS, GRAND JURORS SAY

STEUBENVILLE, O., Jan. 14.—Carl Aiken, Jefferson county prohibition agent, was indicted by the grand jury here today for selling and transporting liquor. L. E. Chamberlain was indicted for the same offense. It is alleged they seized an auto loaded with 308 pints of liquor and sold all but eight pints, which they held as evidence against the runners.

Horses Sell On Auction Block At Two For 25 Cents

JOHNSTOWN, Pa., Jan 14—What price horses? At a bankrupt sale at Dayton, Pa., recently a pair of horses sold for 25 cents—12 1-2 cents each; a single horse sold for 25 cents; another for 50 cents and the fifth for 50 cents. A mule—and it was obtained by a happy negro—brought 40 cents. Eighteen horses and two mules were auctioned off and the total received was $230. Early bidders who really wanted the animals ran the price on several of them up to $50 each—then watched just as desirable animals go at 12 1-2 cents.

Thousands have got relief

SLEEPLESS WITH PAIN OF RHEUMATISM

Now sleeps well and can work with ease

"I could not sleep or do my work, but now I sleep well, walk and do my work with ease. I used Sloan's Liniment only once and it relieved me of my pain. It is just wonderful. I shall never be without it."

This is only one letter but it is typical of thousands that the makers of Sloan's have received, testifying to the amazing relief that Sloan's gives to every kind of muscular pain.

Sloan's gives real relief because it doesn't just deaden the nerves. It stirs up the bodily forces to get rid of the trouble that is causing the pain.

No need to rub, it's the medicine itself that does the work. Just pat it on. Instantly it sends the fresh, healing blood tingling through the sick tissues—and the pain simply has to go. So clean and easy to use, too. Get a bottle. All druggists—35 cents.

After the "Flu" Is Over —You Need a Tonic

Help is Needed to Restore Your Wasted Strength and Energy.

"Flu" leaves the body weakened and rundown. In such cases, a tonic is clearly indicated. Restore the appetite and rid yourself of that let-down feeling

"Flu" is a very enervating disease. It leaves its victims so weak and debilitated that there is as much danger from the after-effects as from the disease itself. In other words, after an attack of the "flu," you need a selective tonic to rebuild the system so that you may have your old-time strength and energy restored.

S. S. S. is unequalled for restoring strength and vitality.

You owe it to yourself and family to give S. S. S. a trial. It helps Nature build up red blood corpuscles. It improves the processes by which the body is nourished. It is time-tried and reliable. S. S. S. is made from the roots of fresh herbs and plants, and is prepared in a scientific way in a modern laboratory.

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

DR. FINKELSTEIN'S PAINLESS METHODS

Here it is in black and white by patients who have had dental work done "the painless way."

That method is a better method than any other. I never knew the teeth were out until the doctor showed them to me.
Mr. Robert Casedy, 204½ S. Jefferson St.

I took "Vital Air" to have 12 teeth extracted. It was absolutely painless. I shall never fear a dentist again.
.... Mr. J. E. Daly, 317 N. Lafayette St.

I had 10 teeth extracted at Doctor Finkelstein's office. I took "Vital Air" and never felt the least of pain. I shall recommend this method to anyone.
Mrs. Florence Hogue, 19 N. Greenwood Ave., City.

That certainly is wonderful. I shall never have my teeth extracted by any other method. I shall recommend Vital Air to anyone.
Mrs. J. Sheaffer, Ellwood City.

These are only a few of the many testimonials Dr. Finkelstein receives from day to day from patients who feared the dentist because of hurt.

Sacasa Makes Reply To Charge

Leader Of Nicaraguan Rebels Charges That Accusations Of U. S. Are False

OUTLINES PURPOSE OF HIS REVOLUTION

(International News Service)

PUERTO CABEZAS, Nicaragua, Jan. 14.—Coming to his own defense, Dr. Juan Sacasa, leader of the Nicaraguan Liberals, today declared in a statement to the International News Service that charges raised by the United States government of bolshevism and a menace to American canal rights in Nicaragua are but a pretext.

Dr. Sacasa stated that the United States has recognized the Diaz government, "which is undeniably the successor of the Chamorro government which the United States refused to recognize," and has resolved "upon intervention to sustain Diaz by force against the Nicaraguan people, thus repeating the case of 1912."

"To justify this intervention," said Dr. Sacasa, "and to satisfy American public opinion various pretexts have been alleged, such as protection of American interests, an agreemnt with Mexican bolshevists, a menace to the canal convention and so forth.

"Despite my conclusive declarations denying such pretexts there prevails in the state department prejudices and intrigues accumulated against the Liberal party and myself.

"A powerful fleet is dispatched to Nicaragua and marines are landed with a bellicose display at the mobilization and provisioning bases of my army.

"Our war materials are seized. Almost 2,000,000 cartridges and 700 rifles have been thrown into the river.

"New neutral zones are created as a protection for Diaz.

"Finally the American marines occupy the capital of the republic and the Pacific coast.

"Regarding my aims I propose to maintain the constitution and realize harmony with the Nicaraguan people, through ample national cooperation and cultivate close relations with the United States upon a basis of justice and benevolence towards my small country."

Inspiring Service In Local Church

Thursday evening Rev. Walter E. McClure, pastor of the Presbyterian church, preached at the revival service in the Mahoning Presbyterian church. The subject of the sermon was: "The Silence of God". Discussing the mysteries, the silence of the heavens and the lustness of God. In the days of Moses, Elijah and Christ are found the three groups of miracles in the Bible. There are many things occurring today that we do not understand, but according to the miracles wrought by God these are not miracles. Why is God silent? This is the day of grace, and the day of judgment will come. These were a number of points discussed by Rev. McClure in his talk.

The members of the Croton M. E. choir were present and greatly assisted with the singing, directed by Mrs. A. C. Bernard, director of the Croton choir. Two anthems were sung by the choir, "Bless the Lord" and "The Storm He Stays".

The service this evening will conclude the special services for this week. Rev. W. J. Engle, new pastor of the church at Bessemer, will preach.

ASSEMBLY PROGRAM

A program was presented Thursday morning in assembly in Mahoning school. A play was a feature. The program presented was as follows:

Cudahy's Puritan Bacon

Famous for Its Finer Flavor

The finer flavor of Cudahy's Puritan Bacon has made it famous. This distinguishing quality is a revelation—the result of the Cudahy special method of curing.

This special method slowly and naturally diffuses the rich juices of the choice young meats and gives to Puritan a superior mild, sweet, delicate flavor.

Any way you serve Cudahy's Puritan Bacon, broiled, fried or boiled, it is good for you—wholesome, nutritious and easily digested. The very aroma whets the appetite. A fine food for growing children.

PETERS ADVENTURES IN ANIMAL LAND

By Florence Smith Vincent

THE MAN IN THE MOON

The little girl clasped her hands and smiled, but her smile couldn't have been for Peter, for she was not looking at him at all. Instead her face was turned toward the sky. Peter, wondering what gave her that glad look, glanced up, too.

And what do you think he saw? First a broad smile!

Then two eyes twinkling merrily down at him!

Then the fat, round, jolly face that wore the smile and the twinkling eyes—the face of the Man in the Moon. The clouds had parted and there he was himself, unmistakably! Peter had seen the gentleman too many times not to know him now.

"Dear Man in the Moon!" cried the little girl. "You can't guess how happy I am!"

"Oh, maybe I can!" chuckled the Man in the Moon, and Peter started.

"What? Can he talk?" cried he. "I'd never have guessed it!"

The Man in the Moon might well have been offended at being so rudely spoken of. But he was a good natured fellow, as fat folks generally are, and, so his smile grew the broader and he slowly winked one eye.

"Earth folks are always making mistakes!" chuckled he. "'Tis a way they have. Fancy, now, their thinking the Moon is made of cheese!"

"Well, what is it made of?" demanded Peter, but he never found out from the Man in the Moon. Maybe that fellow didn't know or perhaps he didn't hear the question. At any rate, he went right on as he had begun, talking to himself and half to the children.

"I dare say the Earth folks think, too, I'm a selfish old fellow out on a round of pleasure every night chasing the clouds with only the Stars as companions! Perhaps they think I haven't a care in the world. But dear me! They're wrong! Everybody's troubles are my troubles, too. I simply can't smile when I look down upon anything gone wrong. When I catch sight of anybody sad and lonely I hide my face with a cloud, for I am sad, too. And then I think, what can I do to help him? Then I send a messenger sliding down a moonbeam. And this is what that messenger whispers in his ear: 'Wish and wish hard to be in the Garden of the Moon, where there awaits you all that you most desire!'"

Next: "One Wish Granted, But—?"

Bald Women May Soon Be With Us

Here's something that will worry the women who go to barber shops. The president of the Barber's International Union, James C. Shanessy, points out that baldness afflicts many men because they encounter scalp diseases in barbar shops. Its spread among women he now believes inevitable unless sanitary conditions are greatly improved. The woman who has the marcel habit is in most danger, for she has her hair shampooed less often.

DINNER STORIES

They were talking politics in the third-class smoking compartment.

"Oh, Lloyd George is a grand speaker," cried the enthusiast in the corner. "There's grit in his ev'ry sentence, determination in his ev'ry gesture. He's as firm an tenacious as—as—well, as these new double collar studs an' tie clips which I take this opportuntiy of puttin' before you gentlemen!"

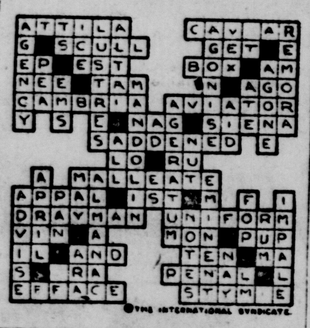

Kenneth rushed in from play with hair rumpled, clothes soiled, and hands dirty, and seated himself at the table. "What would you say if I should come to the table looking as you do?" inquired his mother. Kenneth surveyed his well-groomed mother thoughtfully, then replied: "I think I'd be too polite to say anything."

It was Children's Day in a small country community in Oregon. The very young and inexperienced minister seemed to be somewhat disconcerted by the row of little boys and girls in their starched best who sat in front of him. After several starts, which seemed to get him nowhere, he suddenly stopped, clasped his hands, raised his eyes to heaven, and with a beatific smile said: "And what is so sweet as the face of a little upturned child.?"

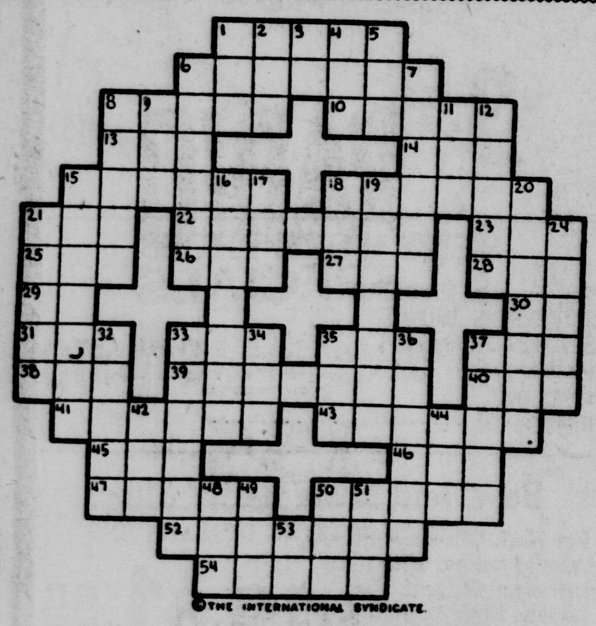

Every man should keep a fair-sized cemetery in which to bury the faults of his friends.

Two Hundred Junior High Girls Take Part In School Exhibition

Gymnasium exhibition given by the girls of the Benjamin Franklin Junior High school under the direction of Miss Vera Rummel, girls' athletic director, on Thursday at the school auditorium, was the best that has yet been presented, according to those who had the privilege of seeing it.

The girls and their instructor are to be highly commended in the way the whole exhibition moved along so smoothly and without a break, carried out their parts to the accompaniment of the music which was furnished by the Benjamin Franklin Junior orchestra.

The program was made up of dances, both solo dances and group dances, drills and tumbling exercises in which over 200 girls took part.

The girls were dressed prettily for their parts and gave a good demonstration how training will develop beauty of rhythm and interpretation.

The program and those who took part in the dances is as follows:

Solo dance—Dorothy Patch.

Tactics—Ninth Grade Girls.

Comin' Thru' the Rye (folk dance)—Dorothy Patch and Martha Randals, Margaret Emery and Susie Nevotne, Agnes Cassalander and Elizabeth Stransky, Mollie Livingston and Lois Rodgers, Helen Keck and Betty Brown and Katy Myscimari and Madaline Joseph.

Clog dance—Jean Twaddle and Lois Rodgers.

Dumbbell drill—Seventh Grade Girls.

Zephyr solo dance—Maxine McCoy.

Tumbling.

"Water Lily" group dance—Jean Remler, Dorothy Patch, Maxine McCoy, Suzanna Hill, Elizabeth Canover, Molly Livingston, Clara Anderson, Lois Rodgers and Ruth Kelly.

Indian club drill—9A Grade Girls.

The two solo dances were dances of the aesthetic type and were most beautifully rendered by the two girls who are considered the star performers. Of the group dances the "Water Lily" dance was perhaps the best. It was of the interpretative type in which the girls dressed in beautiful costumes, pictured girls carrying water jars on their shoulders and going to the well and drawing water.

"Comin' Thru' the Rye", a folk dance, was performed by 12 girls, half of them dressed as girls in bloomer dresses and bright bows on their hair, and half of them dressed as boys with blue overalls and straw hats.

The clog dance was rendered by two girls dressed as "hick" farmers, with bright green overalls and straw hats, with white waists. They wore clog shoes and the way they brought their feet down would almost make a southern darkey green with envy.

The ninth grade girls, who gave the tactics drill were regular soldies in the way they performed the military maneuvers. They were fittingly dressed in the school colors, with large ties in blue and gold.

The tumbling exercises were perhaps as amusing as any of those given. The girls who took part in this exercise were dressed in lavender and green clown suits and looked like a bevy of brightly colored beetles as they gave the front roll or somersault, the toe roll, the ankle roll and the building of pyramids. They ended their part by singing "We Won't Go Home 'Till Morning" as they turned cartwheels off the stage.

A feature of the demonstration was the Indian club drill given by the 9A grade girls, who will graduate to the Senior High school this next semester. They were dressed in red bloomers with red ties over white waists and white hose and white gymnasium shoes. As these 50 girls took their places at exactly even intervals and swung the clubs in perfect rhythm, it was a most beautiful sight.

Miss Rummel said that she has never had a class perform in better, almost perfect rhythm.

DUBLIN, Ire., Jan 14.—The parents of Thomas McManus, 3 year old, of Coolarkin, have to work hard to satisfy the child's husky appetite. In spite of his age he is three feet three inches tall and weighs 98 pounds, and his parents believe he is the largest baby for his age in the world.

BEWARE THE COUGH OR COLD THAT HANGS ON

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action: it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, cresote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to cresote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. Adv.

66,482 Convicted, 15,197 As Drunks, 1926 State Roll

ALBANY, Jan. 14.—Nearly one-quarter of all the persons convicted in New York State during 1926 committed the offense of becoming intoxicated, according to the annual statistics submitted to the Legislature to-night by Mrs. Florence E. S. Knapp, Secretary of State. The report reveals major crimes increased over 1925.

A total of 66,482 persons were convicted. Of these 15,197 were tried for drunkennes, 467 of them being women.

Convictions for murder, first and second degree increased. There were 21 first degree convictions, as compared with 14 the previous year and 50 second degree, as compared with 32.

Ten paid the death penalty in 1926 and 15 in 1925.

Those convicted of crimes, intoxication and other misdemeaners came from every walk of life except one—none gave his occupation as a bootlegger.

Though four times governor of New York, Alfred E. Smith does not hold the record for long tenure of office, even among the present state executives. He is far outdistanced by George H. P. Hunt, who has been elected governor of Arizona six times, and Governor Hunt is only runner-up to Aram J. Pothier, who is serving his seventh term as governor of Rhode Island.

Sure Way to Stop Night Coughing

A Treatment That Ends Night Coughs In 15 Minutes

Persistent night coughing is usually due to causes which cough syrups and patent medicine do not touch. A remarkable prescription known as Thoxine, working on an entirely different principle, goes direct to the cause, and is guaranteed to stop the stubbornest cough within 15 minutes. One swallow is all that's needed. If it fails, get your money back. No chloroform or other harmful drugs. Safe for children. Equally good for sore throat for which purpose it is far superior to gargles. 35c., 60c. and $1.00. Sold by Love & Megown, Terminal Drug Store and all other good drug stores.

Select Debaters At Westminster

Several New Castle Students Are Named For Places On Debate Teams

(Special To The News)

NEW WILMINGTON, Pa., Jan. 14.—Seven of ten candidates for the varsity debate squad at Westminster College, were successful at the try-outs held Thursday. Those who were chosen are: James Chambers of New Castle, William Botsford of Pittsburgh, Howard Hamer, of Erie, Clyde Myers of New Castle, David Williams of Pittsburgh, Thomas Mansell of New Wilmington and Wallace Maxwell of New Wilmington.

"Resolved, that the United States should cancel the War Debts owed it by the Allied Nations," was the subject debated. This is the same question that will be debated by all colleges and universities of the East during the coming season. Dr. C. A. Dawson, Prof. C. W. McKee and Prof. Royal A. Gettman acted as judges.

With the selection of seven men, the roster of the varsity squad is now complete. The veterans who round out the group are: Brown Bricker of Braddock, Jesse Cogley of Braddock, Robert Ferguson of Bellevue, Haldon Williams of Carnegie and Samuel Colman of Philadelphia.

Dr. Dawson, varsity coach, plans to divide the squad into three teams of three men each with an alternate for each trio. The schedule as arranged is a strenuous affair. It features an extended tour through the states of West Virginia and Virginia, coming to a close at Philadelphia where Temple is to be debated.

The season will open about March 3.

Nominate Men For Offices In Star Of Wales

New Officers Being Selected By Lodge—News Notes Of Interest To Welsh

At the last meeting of the Star of Wales lodge the following officers were nominated: Past president, Griffith Phillips, Lyndal street; president, Benjamin J. Fowler, Long avenue; vice president, Emry Lewis, Highland avenue; secretary, Thomas D. Thomas, Cunningham avenue; treasurer, Daniel Williams, Sheridan avenue; recording secretary, William A. Johns, South Mercer street; steward, William J. Davies, Wallace avenue; conductor, Evan Hopkins, Sheridan avenue; inside guardian, Charles Richards, Highland avenue; outside guardian, Samuel Francis, Long avenue; trustee for three years, Griffith Thomas, Park avenue; auditors, Evan Hopkins, Emry Lewis and Benjamin J. Fowler.

A letter came to the lodge this week from Swansea, South Wales, announcing to the people of this city that the conditions in Wales are improving. All the mine strikers are back to work by this time and are giving lots of coal to the tin mills so that the country is in fairly smooth running condition again. The letter came from David T. Johns Landore, former resident of New Castle and now residing in Swansea. He is employed in the Baldwin Tin Plate works of Swansea.

More word come to the friends of David Jones of Woodlawn, who formerly lived in New Castle, that he has been stricken by a very serious illness. His brother, Henry T. Johns, past president of the Star of Wales lodge, and Evan Hopkins visited him last Saturday to find him in a very weak condition. David served as a police officer of the city at one time and is well known.

The Welsh people will be glad to hear that L. S. Thomas of Philadelphia and a cousin of Mrs. Thomas Grey of Cunningham avenue, is improving some at the Presbyterian hospital in Philadelphia. Thomas was taken to the hospital a week ago. He is very well known in this city being a visitor here many times and entertaining the people with his fine singing. All wish him a very speedy recovery.

Millions Use It to Stop a Cold

"Pape's Cold Compound" ends severe colds or grippe in few hours

Relief comes instantly.

A dose taken every two hours until three doses are taken will end grippe misery and break up a severe cold either in the head, chest, body or limbs.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness. Besides, it is an effective laxative. It keeps the bowels open carrying off the poisons that are making you sick.

Don't stay stuffed-up! Quit blowing and snuffling! Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound", which costs only thirty-five cents at any drug store. It acts without assistance, tastes nice, causes no inconvenience. Be sure you get the genuine.

Club Would Restore Old Stevens Furnace

CHAMBERSBURG, Pa., Jan. 14.—The Pennsylvania Alpine club is back of a move to partially rebuild the old Thadeus Stevens furnace at the Caledonia state park, near here.

The furnace was erected in 1837. and was burned by Confederate forces under General Jubal A. Early during a raid through this section in 1863, prior to the Battle of Gettysburg.

A bronze tablet giving the history of the furnace will be erected by the club and the State Forestry department has become interested in the plan to partially rebuild the old furnace, remains of which can be seen in the state park a few yards distant from the Lincoln highway.

SOUTH AMBOY, N. J. Jan. 14.—A farmer living near South Amboy sold an old iron safe to Joseph and Frank Hyer, brothers in the junk business, for $2. When the brothers forced open the doors they discovered $75,000 in stocks, jewels and cash. The ownership of the safe is a mystery.

Texas Constitution Disfranchises 5000 Citizens In Army Reserves

(International News Service)

SAN ANTONIO, Jan. 14.—A clause in the Texas constitution, dated 1876, which disfranchises soldiers of the United States army, is causing considerable comment among Reserve Officers of Texas, following the recent ruling from the Attorney General's office confirming the disfranchisement of some 5,000 Texans who hold commissions in the Officers Reserve Corps.

The ruling from the Attorney General's department was given by L. C. Sutton, an assistant, in the absence of Attorney General Dan Moody, and has raised a storm in the ranks of the reservists.

Not alone will the disfranchisement bar the Reserve Officers from exercising the ballot, but it would disqualify them from jury service, they point out. If they cannot vote, reserve officers say, they do not intend to pay their poll tax. As the period for paying poll taxes will expire January 31, the reservists are anxiously awaiting the final showdown in the situation.

Seek Modification

Ralph Durkee, president of the Reserve Officers Association, is making prodigious efforts to have the Attorney General's department modify the ruling so as not to bar the officers from voting.

Durkee claims, and he quoted General John Ross Delafield, president of the United States Reserve Officer's Association. that officers of the Reserve Corps are not on active duty until called out by the President of the United States. Their status at all other times is that of any ordinary citizen, Durkee contends.

When the ruling of Assistant Attorney General Sutton was brought to his notice by El Paso reserve officers, last November, Durkee immediately took the matter up with Sutton and the latter informed him that if the War Department defined the exact status of such officers, the department would be in a better position to rule on the matter.

Sutton's reply to Durkee's request stated, in part, that "if it is a fact that the reserve officers are not in the military forces until called into actual service, then we would probably hold that they can vote."

Durkee immediately forwarded statements emphasizing the fact that the reserve officers are not legally in the army until called for actual duty; that they are not subject to military discipline, nor to the orders of the Commander-in-chief of the United States armed forces until called to actual duty.

No reply has so far been received from the Attorney General's office to this additional clarifying information, Durkee said. And the reserve officers are considerably agitated.

The question of franchise for reserve officers came to a head following the passage of an constitutional amendment at the recent general election which the voters of the state approved in most convincing fashion. The amendment provided that National Guard and Reserve Officers are eligible to hold public offices.

JOE DUNDEE TO BATTLE EDDIE ROBERTS TONIGHT

Veteran Will Try Comeback

Odds Favor Dundee To Defeat Coast Fighter Who Knocked Him Out

ROBERTS FAILS TO IMPRESS

BY DAVIS J. WALSH
Sports Editor Internat'al News Service

NEW YORK, Jan. 14. — It will be Ketchel and Papke, Gans and Frank Erne and John Dundee and Jackson all over again at the Garden tonight, just a return engagement of an age-old act in which the man who has been knocked out attempts to prove that he can come back to beat the gent who knocked him out. They never come back, according to the old-oaken, moss covered bromide, but it doesn't apply to Stanley Ketchel, Joe Gans and Rubber Checks and and it may be that Joe Dundee is immune, too.

Anyhow, Joseph tonight is scheduled to frolic again with Eddie Roberts, of Tacoma, Wash. It is supposed to go ten rounds but you never can tell about those things. As I remember it, the last Roberts-Dundee match was scheduled for ten rounds and didn't last one, Joseph accepting a right hand full on the nutmeg in the first minute of play.

The punch ruined half the bootblacks and fruit peddlers between here and San Francisco and acted as a temporary injunction restraining Joseph from further conducting himself as the official challenger for the welterweight championship. The title in question might very well ride with the result of tonight's fight, although neither man is a champion—yet.

Dundee Favored

The idea, it seems, is rampant, or something, that Pete Latzo no longer can make the welterweight limit of 147 pounds without holding his breath and, when you get a champion in that predicament, he is not long for this life, so to speak.

The boys are rallying around Dundee for tonight and the odds are 7 to 5 that he will win. Apparently they are imbued with the idea that San Francisco knockout was tinctured with iodine and just didn't count. They further have achieved much solace by recalling that Ketchel returned to knock Papke into the right field bleachers and that Gans, stopped in twelve rounds by Erne, later was able to reverse the feature in exactly one.

Why they should confound Joe Dundee with Gans and Ketchel is a bit beyond my feeble resources. From what I have seen of Joseph, he is a fair fighter who might become champion provided no one else is better. They say he is one of rising young men of the profession and he may need to be if Roberts annoints him with another right.

Most of the pro-Dundee crowd support their guess on tonight's number by declaring that Joseph always was a slow starter anyhow but would hasten himself this time. In other words, they are looking for a Charley Paddock performance from Ping Bodie. My guess? A fair enough fight, with Dundee winning on points.

Crimson Field Narrows Down

Tommy Holleran, Coach At Thiel, Offered New Post

SHARON, Pa., Jan. 14.—Dr. Thomas Holleran, present coach of Thiel college, is being strongly mentioned as a successor to Charley Bowser as coach of football at Grove City college. It is known that Holleran has been approached, but he is undecided on whether or not to accept the post, having made plans to go to St. Louis to take a post-graduate course in dentistry.

The Grove City college officials announced that the field of candidates for the post had been reduced to eight men and that they would make a decision next Thursday.

Fast Games Are Billed In Church League Tonight

Two fast games are on tap tonight in the New Castle church league. The first game of the evening will bring together the Croton M. E. and the First Baptists, while the second engagement will find the Central Christians and Jewish Imperials as opponents. The games will be played on the "Y" floor starting at 7 o'clock.

The league opened play last week with three fast battles and the games tonight are expected to be just as good as the lid lifters.

Saturday night the First M. E. team will play the Sacred Hearts on the Y. M. C. A. floor.

Garfield Five Trims Scouts

The Lincoln-Garfield five defeated the Boy Scout troop team No. 220 by a score of 13 to 3 in a game played at the Lincoln-Garfield gym floor.

Here And There In Sports' Land

By ED. FRITZ

FOLLOWING publication yesterday of a story captioned: "Left Hands", a fan brings to our mind the recollection of the Chip-McCoy fight, in which a left hook to the jaw knocked George from Throneville and money that travels in the wake of a king of punch.

According to accounts of the fight, George substituted for his brother, Joe, and when he started after McCoy, who was figured easy meet, Al doubled up like a jackknife. Chip forgot to guard his chin and McCoy lifted a hook from the floor and that was the end of Chip's title fight.

CHIP was a "hard luck" fighter, or in words more obnoxious, he couldn't drift along and win on points because he was not clever. He had to fight every time he entered the ring. In winning he had to take and give and he took plenty and gave plenty.

He fought Jack Dillon at least a dozen times. When they first met in the squared circle Jack had no difficulty in outpointing George, incidentally giving him healthy swats. Later on George was able to repay the compliment with equally healthy swats.

ONE of the hardest "birds" Chip had to encounter was Knockout Brown, the Greek. He was so tough he could rest his chin against a hickory board and bend it, so they say. Chip and he fought at Akron and twice at New Orleans.

It was Brown that George met first after losing his championship. The fight was staged at Akron. It was but the beginning of a feud. In New Orleans they fought with the viciousness of gorillas, and according to fans who witnessed the fights they were similar to a legal murder. Both were tough and hard punchers.

TALKING of "hard luck", Chip went to California and ran into a clever boxer, named Billy Murray, managed by Jack Kearns. He plastered Chip for more than one-half the rounds the fight was to go, but George got warmed up and finally knocked him out.

This set the coast on fire and Murray said if given a second chance he would win. Chip gave him the chance, but Murray was stopped within a few rounds, proving that George had profited by his former experience and entered the ring warmed by steaming hot blankets.

SAILOR Petroskey was another tough guy that Chip had to stop. He virtually put several other fighters out of the game, but being tough, George was able to withstand their blows. The first real sign of his end came when he fought Frank Carbone at Youngstown.

The former champion fought Harry Greb, Mike Gibbons and Les Darcy. Greb outpointed him, Gibbons boxed his way to the decision, but Les Darcy knocked out the New Castle fighter. He fought three weeks after he hit Australia.

WHEN the cable flashed to America there were many fans who thought George should have been given more time to get rid of his sea legs before he met Les Darcy. He lost, as others did to the Australian, but he lost trying.

A Mehlhorn Year?

By Feg Murray

Copyright, 1927, by Metropolitan Newspaper Service

Will this be a Bill year? 1926 was not so god to champions and near-champions by the name of William. Witness what happened to Big Bill Tilden, Little Billy Johnston, Bill Sherdel, Biss McKechnie, Bill Stribling, Willie MacFarlane, Willie Hoppe and William H. Dempsey.

Here is my nomination of one Bill who is due to collect in 1926. His name is Wiliam Mehlhorn and he has been knocking at the door of golf greatness for a long time. Such an incessant pounding cannot long be ignored and some day soon "Wild Bill" Mehlhorn is due to crash through into real fame. Of course he is famous already but by "real fame" I mean winning a natioal open championship. Mehlhorn belongs to that select group of golfers who seem right on a par with the best in the world, but are never quite able to win a national title. Mac Smith and Abe Matchell are two others.

The last few United States open championships have been a series of heart-breakers for Wild Bill Mehlhorn. In 1926 he tied for third, four strokes behind Bibby Jones. In 1925 ha was not so lucky scoring a 301 to Jones'es and McFarlane's 291, but in 1924 he finished third, after leading the field for the first two rounds, 1923 found him as two years later, ten strokes behind the winner, but the start of the final round in 1922 found him sharing the lead with Bobby Joies. However he was two strokes back of Gene Sarazen the winner and one behind John Black and Bobby Jones at the finish.

Mehlhorn finshed up the year 1926 in California as he started it by winning an important tournament, this time the Sacrameneo open. He won it with an average of 60 for the three rounds, too and after everybody had predicted that he was through because of an accident last fall to the index finger of his right hand.

So keep your eye in Blond Bill Mehlhorn the long driving, roistering, loud-voiced, free-lance professional. Victory in an open championship cannot forever elude this outstanding figure of the great game of golf.

Feg Murray Says.

A prize of $1,000 goes to the winner of the "Top of the World and Back" dog derby in the Banff winter carnival. I wonder what the dogs will do with the dough.

Union High Wins From Mahoning

Close Game Is Played On Mahoning Floor—Final Score Is 14 To 9

Playing the closest game that either team has played this year, and as hard fought a game as will be played in the school league the Union High school and Mahoning Junior High school basketball teams fought through four quarters, finally upsetting the hopes of Mahoning when the Union township boys romped home with a 14 to 9 victory. The game was played on the Mahoning floor.

Union took the lead in the first quarter when Hughes sunk a foul shot during the last few minutes of play after each team had spent ten minutes of trying to place the oval through the basket. The score at the end of this period was 1 to 0.

Coming to life in the second quarter, Mahoning scored seven points, Brumbaugh, Sweener and Russo each scoring field goals, while Hilliard sunk a foul, Union getting only two points out of the fast playing guards on the local five when Crispy located the basket, arching the ball from the side of the floor. The score at the end of the half was 7 to 3 in favor of Mahoning.

Once more losing their eye, the Mahoningtown boys were able to score only two more points, both of these coming from Russo who shot two fouls. During this period, Funkhouser and Rech of Union played a wonderful game as guards, while Crispy and Gibson came to life on the working end of the team and scored.

Sweener and Hilliard played the best game for Mahoning, while Union had no individual star, every member of the team showing up well.

The lineup:

Union 14		Mahoning 9
Crispy	F.	McIlvenny
Keeler	F.	Russo
Hughes	C.	Bender
Funkhouser	G.	Sweener
Rech	G.	Hilliard

Subs.—Union: Keeler. Mahoning: Brumbaugh, Rishel, Rice.

Field goals—Crispy, Gibson 2, Hughes, Russo, Brumbaugh, Sweener 1.

Rogers Hornsby Is Threatened By Big Bettor

Ft. Thomas Kentucky Man Claims Hornsby Owes Him $92,000

(International News Service)

ST. LOUIS, Jan. 14.—Threatening court action unless a settlement is made by Rogers Hornsby former manager of the St. Louis Cardinals, Frank Moore, a betting commissioner of Ft. Thomas, Ky., returned to this city and arranged for a conference with the baseball stars lawyer this afternoon regarding an alleged debt of $92,000.

Moore claims Hornsby owes him this amount for money advanced the players to pay debts incurred on horse race bets and to make a payment on an apartment house which the latter bought in St. Louis.

William F. Fahey, Hornsby's lawyer, reiterated his client denied owing the debt and that he advised his client not to recognize the claim.

Season To Open At Wilmington

(Special To The News)

NEW WILMINGTON, Pa., Jan. 14.—New Wilmington's basketball team is ready to pry the lid off its scholastic season Friday evening on the home floor by meeting the Mt. Jackson High team. The girls' team of the same school will also meet.

Coach Wiggins has been drilling his men hard since the practice contest with the Alumni and considerable improvement in team play has been affected. He is expected to start the same team against the Mt. Jackson five as started against the Alumni.

Mt. Jackson is expected to give the New Wilmington lads plenty of fight. The hill-top lads recently lost to the strong Ben Franklin team of New Castle by a one point margin on the Ben Franklin floor.

The first game will start at 7:30.

Mahoning Quintet Seeks Floor Games

The Mahoning A. A. team would like to book a game away for Wednesday, January 19, and also a home game on Tuesday or Thursday of the same week.

For games call Manager "Pick" Glitch at 2942 any time after 6:30 o'clock. The Mahoning team would like to play the Wampum Indies at Wampum next Wednesday night.

Falcons Win At Beaver Falls

The Polish Falcons of this city recently journeyed to Beaver Falls and defeated the Polish Falcons of that city by a score of 20 to 17. The game was fast and interesting throughout.

The Beaver Falls team were champions of the Beaver valley last year and the locals feel justly proud of their victory.

Geneva To Play Allegheny Tonight

BEAVER FALLS, Pa., Jan. 14.—Geneva basketball team has been laboring daily at the college gymnasium in preparation for the Friday game with Allegheny on the Meadville court.

It has been so long since Geneva has beaten Allegheny at Meadville that the fans here cannot remember of it. The chances for doing that trick this year are not bright. Although the Gold and White five appeared good in spots against Carnegie Tech they showed glaring weakness.

One handicap which Geneva has toovercome while away from home is large courts. Geneva is afflicted with a tiny floor, favorable perhaps when visiting teams play at Geneva, but it certainly does not give McMillin's courtmen the advantage on foreign floors.

Coach Bo McMillin was encouraged by the last half of the Carnegie Tech contest, Rubenstein, former Fifth avenue high school star in Pittsburgh, was the chief fireworks throughout the close game. Emrick showed that he can play the floor game with speed and cleverness. Mort Clark, captain suffered an off night Tuesday but he rarely has two bad evenings in sequence.

Grove City To Meet W. & J. On Floor Saturday

Coach "Bob" Thorn's Team To Get First Real Test Tomorrow Night

GROVE CITY, Pa., Jan. 14.—Coach Bob Thorn's Grove City college passers will meet their first real test of the season Saturday night when the strong Washington and Jefferson college quintet will invade this district for the first important floor game on the Crimson schedule. Considerable interest is being manifested in the game and indications are that one of the largest crowds to ever witness a game here will turn out tomorrow night to see the thrilling floor encounter.

Following the game Tuesday night with St. Francis college the Grovere were granted a day of rest before resuming pratice on Thursday for the fray with the Presidents. St. Francis offered little position to Grove City in the nonsectional tilt and the contest proved to be nothing more than a conditioner for the Crimson prior to their clash with W. and J.

In spite of the four consecutive wins credited to the Grovers, Coach Thorn, foxy Crimson mentor, has repeatedly warned his proteges that the early season games were nothing more or less practice tilts and that their true worth would be at certained following their tussle with Andy Kerrs aggregation of hardwood performers.

Captain Stevens and his mates returned to practice Thursday with vengeance in their eyes and underwent a gruelling 60 minute session on the hardwoods. Another session is scheduled for today after which the boys will rest until game time Saturday.

W. and J. by virtue of their two wins over Grove City last year coupled with their sensational playing this season are favorites to cop from the Grovers tomorrow night.

Announcement is forthcoming today that Saturday's game with W. & J. will begin at 9 o'clock instead of 8 as heretofore. This change is made in order that the business men of the community and interested fans from outlying districts may get here in plenty of time to see the first tip-off.

"Beggs" Snyder has been secured to handle the contest and everything is in readiness for one of the biggest games of the year.

Bowling has made such rapid strides in popularity during the past 25 years that many predict another decade will see the great indoor game ranked with the major sporting activities.

Bessemer Pirates Lose By One Point

North Lima Team Defeats Bessemer Five In Fast Game 34-33

(Special To The News)

BESSEMER, Pa., Jan. 14. — Gaither's field goal just before the final whistle following an out of bounds play gave the North Lima Excelsiors a 43-33 victory over the Bessemer Pirates, at the Bessemer gym, Wednesday evening.

Bessemer had little difficulty in maintaining a comfortable lead up until the final quarter, as North Lima could never come to within less than three points of the Pirates' total of points. The game itself was slow and uninteresting up until the final quarter, but there were enough thrills packed into the final period to more than make up for the rest of the game.

As far as goal shooting is concerned the Bessemer players made a higher percentage of their shots than the North Lima team, but their inability to control their passes proved their undoing, for too many of their passes were either fumbled or went out of bounds altogether. Until he was removed from the game in the final quarter, Smith was the outstanding player, with Diehle, Olson and Swanson crowding him closely for this honor, while Elser and O. Slagle, were North Lima's aces.

Lineup:

Bessemer Pirates 33		North Lima 34
Olson	F.	O. Slagle
Diehle	F.	Gaither
Swanson	C.	L. Elser
Beale	G.	O. Elser
Smith	G.	Love

Substitutions—Bessemer: Chaney, Carlson, Jacobson, Bryan. North Lima: Little Sprinkle.

Field goals—Olson 6, Diehle 3, Swanson 1, Chaney 1, Smith 3, Beale 1, O. Slagle 6, Gaither 3, L. Elser 3, Love 3.

Foul goals—Diehle1, Chaney 2. O. Slagle 3, L. Elser 1.

Referee—Post.

Scorer—Wilson.

Timer—Carlson.

Falcons Defeat Sacred Hearts

The Polish Falcons, one of the leading junior teams of the city, defeated the Sacred Heart team of the New Castle Church League by a score of 42 to 22, in a game played recently.

The Falcons trailed the Hearts at the first quarter, 11 to 4, and at the end of the first half the Falcons had dropped down to 18 to 14. At the start of the third quarter the Falcons soon hit their stride and it was not long until they had overcome the four point lead of the Hearts.

The end of the third period found the Falcons on the long end, 25 to 22. The Hearts were held scoreless in the final quarter of play, while the Falcons scored almost at will.

For the Falcons the playing of A. Mehalic with five baskets, and Frankovic and Cegielka with four apiece featured. Banjo and DiThomas were the best for the Sacred Hearts.

The lineup and summary:—

Polish Falcons.		Sacred Hearts.
A. Mehalic	F	Banjo
Frankovic	F	Maielli
Cegielka	C	Bartlett
Zuhowski	G	DiThomas

SPORTS DONE BROWN

By NORMAN E. BROWN

An eastern boxing writer has just concluded the nation-wide poll of boxing experts to determine who are the leading fighters in every class. The poll showed some interesting results.

Jack Delaney, light-heavyweight champion and the man who seems most likely to figure in the main bouts of the heavyweight elimination tournament, not only drew the biggest vote in his class but was given a bigger vote than any man in any other class. Fidel La Barba, fly-weight champion topped his class and ranked second in the general vote.

Tod Morgan, junior lightweight champion led his division and ranked third in the general results.

Pete Latzo, welter-weight champion, was declared the best fighter in his division and ranked fourth in recognition.

Gene Tunney, king of the heavyweights was called the best man in his class, but was ranked fifth in total votes.

Charlie Rosenberg, batamweight champ, was placed seventh, after Sid Terris. Next came Bud Taylor, feather-weight without a title, and then Sammy Mandell, light-weight champion.

Tiger Flowers, dethroned as middleweight boss by Mickey Walker, was ranked tenth, two steps above Mickey himself. Jack Dempsey was placed sixteenth in the list, but second among the heavyweights.

Jack Sharkey was the only other heavyweight to receive enough votes to be ranked in the first twenty, all classes included.

The settlement between Charlie Hoff, Norwegian pole vaulter, and the A. A. U. regarding damages Hoff sought for the association's failure to compensate him for expenses and for their action in declaring him a pro means that Hoff will be restored to amateur standing by the Olympic committee in time to participate in the 1928 games.

Hoff was declared a professional when he accepted a vaudevilie contract after his row with the A. A. U. over expense money. The "pro" stamp immediately removed him from the Olympic eligibility list.

While the action of the A. A. U. doesn't restore Hoff's amateur standing it does eliminate the cause of the friction between him and the amateur officials and removes the only stumbling block to a future application for reinstatement.

The whole affair was an unfortunate one, due mainly to the touchy attitude of the A. A. U.

Peerless Quint Defeats Stars

The newly organized Peerless Five swamped the Italian Star Invincibles under a score of 46 to 16 in a game played Wednesday night at the Mahoningtown gym floor.

The Peerless team got under way in fine fashion and after the first few minutes of play it was apparent that the Nolte coached team was too strong for the seventh warders.

Captain Marino led his team in scoring with six baskets, while Honkonen gathered in five for the evening. Fernati and Mash put up a fine game at the guards.

The score at half time favored the Peerless team 24 to 8. Bunnel and Orlando were the best bets for the Stars.

The lineup and summary:

Italian Stars 16		Peerless 46
Cardella	F	B. Marino
Rotunno	F	C. Marino
Frigione	C	Honkonen
Orlando	G	Fernati
N. Rotunno	G	Mash

Subs—Stars: Bunnel, Perrett. Panella. Peerless: Gennock, Natale.

Field goals—B. Marino 6, Honkonen 5, Fernati 3, C. Marino 2, Gennock 2, Orlando 3, Bunnel 3.

Fouls—Peerless 10 out of 21, Stars 4 out of 12.

Time of quarters—10 minutes.

Musketeers Top Regals 33 To 16

The Musketeers defeated the Regals 33 to 16 in a Boys league game played on the Y. M. C. A. court on Thursday afternoon.

The Musketeers outclassed the Regals in all departments. At the first half the Musketeers led by a score of 19 to 12. The Regals were heud for four points in the entire second half of the battle.

Hannon, Clark and W. Woods were the best for the winners, while Solomon and Ginsberg featured for the Regals.

The lineup and summary.

Musketeers—33.		Regals—16.
A. Woods	F	Solomon
Hannon	F	Ginsberg
Clark	C	Saul
Hill	G	Levine
W. Woods	G	Cohen

Subs: Winnick, Levine, M. Levine.

Field goals: Hannon 4, Clark 3, Hill 3. W. Woods 3, Solomon 3, Ginsberg, Saul.

Last Nights Fights

AT JERSEY CITY, N. J.—Chick Suggs of New Bedford, Mass., defeated Georgie Mack of Jersey City, ten rounds.

AT WILKES-BARRE, Pa. — Mickey Doyle of Pittston, Pa., won decision over Jimmy Burns of Atlantic City, six rounds.

When in his prime Langford was one of the wonders of the squared circle. The "Boston Tar Baby", as he was familiarly known, hovered about the heavyweight throne for several years and all but grabbed the seat. He was a marvel as a fighting machine. He had the gorilla build and tremendous power of Bob Fitzsimmons, combined with the skill of a "Kid" McCoy. His ring career began more than 25 years ago, when he started as a lightweight. From the lightweight division he grew into the welter, thence to the middleweight and finally to the heavy. Many experts stamped him as the cleverest man of his weight and inches in the world.

20,000 Beetles For Smithsonian

Mount Vernon, N. Y., Man Spent Nearly Forty Years Amassing The Collection

WASHINGTON, Jan. 14.—A collection of 20,000 water beetles, representing the fruits of the entomological work of one man's lifetime, has been given to the National Museum, under the Smithsonian Institution. John D. Sherman, jr. of Mount Vernon, N. Y., who spent nearly forty years in amassing the collection, is the donor. Mr. Sherman made the gift in honor of Dr. E. A. Schwarz of the Bureau of Entomology, Department of Agriculture to whose inspiration he attributes his first interest in entomology and whose guidance has aided him in making the collection.

The water beetles composing the collection belong to the families Dytiscidae and Haliplidae, representing approximately 400 North American kinds and 200 additional exotic kinds. The collection is fairly complete for the North American species of these beetles. All the specimens are in excellent preservation and well mounted and labeled. Aside from its completeness, the peculiar merit of the collection lies in the many specimens of each species included. This will permit a study of the variation of species, which is not possible with the ordinary collection containing three or four specimens of each kind.

The insect collection administered by the Smithsonian now includes some 113,000 different species and 2,500,000 specimens. The institution is daily appealed to for identification of insects from all quarters of the globe.

Isadora Duncan Is Rescued From Suicide Attempt

(International News Service)

PARIS, Jan. 14.—Isadora Duncan has been rescued from drowning at Nice by Colonel Patterson of England, according to reports received here.

The circumstances of the accident are not clear, although one report states that Miss Duncan has been despondent for several days.

Recently Miss Duncan declared she had never been divorced from Serge Essenin, the Russian poet, whose estate is now claimed by several persons, including one woman who states she was Essenin's wife when he died by his own hand.

Friends of Miss Duncan say she herself is not affluent and that she is living a very simple life.

Do Rent Receipts Keep You From Owning A Home Of Your Own

Why pay rent when you buy a home on easy terms from the houses advertised for sale in our Real Estate Column. There you will find houses of all sizes and descriptions, in every part of the city, and you will find dealers who will make the terms to suit your individual financial condition.

If you are working for a moderate salary, tell your problems to the Realtor and he will help you to convert the rent you are paying into a home of your own. A few years of paying rent will buy a house. It has been estimated that a person who rents 30 years pays for at least six houses. Pay for your own house and then buy another that some one will pay you for in rent.

The Realtor will tell you how.

HIGH LIGHTS OF HISTORY

Registered U. S. Patent Office.

Sortie From Fort Donelson.

by J. CARROLL MANSFIELD

ON THE NIGHT OF FEB. 14, 1862, THE LEADERS OF THE CONFEDERATE FORCES DEFENDING FORT DONELSON HELD A COUNCIL OF WAR. IT WAS DECIDED THAT WITH THE UNION ARMY STEADILY INCREASING IN NUMBERS IT WOULD BE IMPOSSIBLE FOR THEM TO HOLD THE FORT MUCH LONGER. THEY THEREFORE RESOLVED TO ATTEMPT A SORTIE IN FORCE BEFORE ALL CHANCES OF ESCAPE WERE CUT OFF.

THE NEXT MORNING BEFORE DAYBREAK, 10,000 CONFEDERATES LED BY GENERAL PILLOW SALLIED FROM THE FORT AND HURLED THEMSELVES UPON THE UNION LINES AT A POINT HELD BY THE DIVISION OF GEN. McCLERNAND. STARTLED BY THIS SUDDEN ATTACK IN THE DARKNESS, THE FEDERALS GAVE WAY IN TEMPORARY DISORDER.

©1926, BY THE McCLURE NEWSPAPER SYNDICATE

GEN. LEWIS WALLACE, U.S.A.

GEN. McCLERNAND SENT AN AID TO GEN. LEW WALLACE FOR REENFORCEMENTS AND STRONG SUPPORTS WERE RUSHED TO THE SCENE.

A DESPERATE BATTLE SOON WAS RAGING AND CONTINUED THROUGH THE DAY. THE UNION LINES HELD FIRM AND, AT LAST, FINDING THEY COULD NOT BREAK THROUGH, THE CONFEDERATES FELL BACK TO THEIR ENTRENCHMENTS.

GEN. S.B. BUCKNER, C.S.A.

THAT NIGHT ANOTHER COUNCIL OF WAR WAS HELD WITHIN THE FORT. AFTER A LONG CONSULTATION, THE CONFEDERATE GENERALS AGREED THAT FURTHER RESISTANCE WOULD BE FUTILE.

GEN. FLOYD, IN CHIEF COMMAND, WHO HAD BEEN SECRETARY OF WAR IN BUCHANAN'S CABINET, FEARED CAPTURE AND ESCAPED FROM THE FORT, WITH GENERAL PILLOW AND A FEW TROOPS, LEAVING GEN. BUCKNER TO ARRANGE THE TERMS OF CAPITULATION.

TOMORROW—FORT DONELSON YIELDS.

N. Y. STOCKS

(International News Service)

NEW YORK, Jan. 14.—Speculative interest was directed to the railroad stocks in early trading today by the announcement of the projected amalgamation of the Great Northern and Northern Pacific, with the possible addition of Burlington and Colorado and Southern, after a series of negotiations extending over six years.

Lehigh Valley held the center of the stage, with a new advance to above 110. This road is being sought by purchase of stock in the open market, and present holders are clinging tenaciously to their stock in expectation of much higher prices.

Northern Pacific and Great Northern were comparatively quiet. Though Northern Pacific moved up about a point and Colorado and Southern 2 points.

The oil stocks were active and firm, with Standard of New Jersey reaching a new high for the year to date, and Pure Oil, Sinclair, Simms, Maryland, Barnsdall and Mid Continent fractionally higher. An increase of 25 and 30 cents a barrel in Pennsylvania crude oil was announced today, but the gasoline markets were slightly reactionary.

The weekly Reserve Bank report showed an unusual gain in the reserves of the various banks as well as the system as a whole. The New York bank's reserve at present is 81.9 per cent of total resources, and that of the whole system 75.4 per cent. The rediscount rate was unchanged at 4 per cent and the call loan renewal rate was also unchanged at 4 per cent.

Coaster Is Killed, Two Others Injured, Near Altoona, Pa.

(International News Service)

ALTOONA, Ja. 14.—One person is dead and two others are suffering today from injuries sustained in a coasting accident in Juniata Gap. Joseph W. Parks, Jr., 19, of Juniata Gap, suffered a fractured skull and died.

The injured were Robert Parks, 17, Joseph's brother, internal injuries; and Miss Ruth McBroon, 17, of Homewood, Pa., fracture of left elbow.

The three on two sleds fastened together, coasted into an automobile driven by Gerald F. Herbert, Altoona, last night. Joseph Parks, Sr., on his way to the hospital after the accident, was injured when his car skidded and overturned.

Patterson School Annual Reception

"Stunts" In Connection With Recitals Prove Of Exceptional Interest

Annual reception known as Musicale and "Stunt" night was held last night by the Patterson School of Music in which the vocal and piano students from neighboring towns joined with the local students in the event which is held every January.

After a program of vocal and piano numbers, the "stunts" were introduced by Professor Patterson with a short explanatory talk on the value of music as the most cultural study known.

Students were divided into groups and put through seven different tests. The tests were: first for "poise and diction," won by Miss Louise Carnes of Sharon; second, for "Higher criticism" won by Dr. W. A. Womer; third for "Speed and accuracy" won by Miss Dorothy Hilborn; fourth for "power of imitation" won by Mrs. Paul Weller; fifth in "cutting and equipping," won by Miss Madeline Oliver, of Portersville; sixth for "control of mind over matter" won by Charles Freeman.

Winners of the six tests were then put through a final test on "Etiquette" which was won by Charles Freeman, who ate his cream puff in the most approved manner considering the speed.

Following the humorous tests refreshments were served by Mrs. Paul Brown Patterson assisted by Mrs. H. E. Helling and Miss Ruth Blocher of Ellwood City, Mrs. W. A. Woodworth, Mrs. Charles Freeman, Jean Snyder and Dorothy Sankey of New Castle.

Following is the program of music which began the evening's festivities.

Saint-Saens — Variations on a Theme by Beethoven (for two pianos—Dorothy Hilborn and Paul Browne Patterson.

Handel—Care Selve (from Opera Atalanta)—Erma Blythe.

Strickland—At Eve I Heard a Lute—Ora Youndt.

Government Experts Studying Radio To Make Plans For Future Control

By ROBERT S. THORNBURG
International News Service Staff Correspondent

WASHINGTON, Jan. 14.—Preparations to make important scientific investigations that will be essential to the administration of radio control, once the broadcasting industry goes back under government control, are being made by the U. S. Bureau of Standards.

Experts said that regardless of the form of control legislation enacted by congress, months of scientific research will be necessary before the final regulations are put into effect.

The bureau maintains one of the most effective "ether police" systems in the world, with a great variety of technical machines to study the vagaries of radio waves.

Among the new devices to study broadcasting is a direction finder of the rotating coil type, which is suitable for use outdoors and which will prove a valuable aid in investigating the peculiar behavior of radio waves.

To Locate Signals

"The direction finder is recognized as an effective means of locating radio signals from any source, such as a ship in distress, a radio beacon or an airplane in flight," the bureau said. "With the rapid increase in the range of frequencies used for radio transmission, need has arisen for a direction finder which will function over a wide range of wave lengths and yet be portable and simple of operation.'

The new direction finder is a superheterodyne type, employing a standard amplifier arranged for operation by a single control, with a frequency range of from 90 to 7,700 kilocycles of 39 to 3,300 meters.

After authority is granted by congressional legislation it is anticipated that the radio inspectors will be equipped with direction finders to study conditions in all sections of the country. Many unauthorized radio stations believed to be in operation, some for criminal purposes, could be traced by the device. Other "man-made" interference could be similarly detected.

Study Interference

Government radio experts studying the interference problem are interested in new regulations adopted by the government of New Zealand, aimed at eliminating trouble from radio reception.

The New Zealand authorities will take steps against the use of illegal or prohibited types of radio receivers and the misuse of legal receivers according to information received from Consul General W. L. Lowrie, at Wellington.

"The regulations provide that direct coupling of the tube to the antenna shall not be effected except in the case of certain approved sets for which special permission has been given and in the design of which special and effective provision has been made to prevent radiation or to reduce it to a negligible quantity," Lowrie said.

"They provide that circuits of superheterodyne type shall not be used with an open antenna, but only with a loop; and that where magnetic reaction is employed it shall be capable of smooth and ready adjustment of control."

Splendid Message On Worldiness

Rev. Scripture Asserts That Many Christians Fail On Account Of Worldly Pleasures

Although the walking was very slippery there was a good attendance last evening at the revival services being held in the Hoover Heights Gospel tabernacle of the Christian and Missionary Alliance, Morris street. Rev. Davis of the Moravia stop church offered prayer.

The pastor, Rev. Scripture, spoke on "Demas", drawing his lesson from the reference to him in Second Timothy 4:10, "For Demas hath forsaken me, having loved this present world."

The speaker emphasized that the Christian warfare was not against individuals but was a great struggle between good and evil, between God and Satan.

There will be special singing at the service tonight. The sermon theme wil be "The Prodigal Elder's Brother". Service at 7:30.

City Will Become Headquarters For Entire District

The Gulf Refining Company will make this city its distributing headquarters for its products in this district after February 1, as the result of having leased for a long term of years, the office, and filling station equipment of the Max Ludwig Company building on West Washington street on the site of the former glass works and opposite the Pennsylvania railroad station.

The leasing company will operate a service station and erect large tanks on the property to hold its reserve supply of gasoline and other products. It will operate its tank wagon equipment from this station and also maintain offices for the district. It will mean the employment of a number of people.

The Max Ludwig Company will occupy the balance of the property, including the large garage in the rear of the office part leased by the Gulf Refining Company. The Ludwig Company will remove its offices and all its equipment to the new location.

The old location of the Ludwig Company on Shenango street, will be occupied by the Shenango Motor Company, a corporation in the course of formation.

Saves Children From Attack By Frothing Dog

Sergeant D. T. Nelson of the police force shot a dog believed to be mad, while on Long avenue, this afternoon. The dog was acting as though mad, frothing at the mouth and snapping at children on the street. The officer prevented any being bitten by despatching the dog with his revolver.

Can Collection Starts On Monday

Collection of tin cans by the garbage department will be resumed on next Monday morning. The collecting will this time be started in the Third ward and the people of that district are requested to have their cans in containers beside their garbage cans so that the garbage men will not be delayed in making the collection.

Ask Physician To Itemize His Bill

Council today requested Dr. E. N. Stutz to present an itemized bill relative to treatment he gave to Patrolman Frank Reynolds, slashed by Paul Bronich whom the policeman shot to death in defense of his life, November 20.

Council ordered the hospital and drugstore bill paid.

Directors Hear Project Reports

Chamber Of Commerce Directors Discuss Troop A And Other Matters

Regular semi-monthly meeting of the board of directors of the New Castle Chamber of Commerce was held as a luncheon meeting in the Elk's Club, Thursday, with President F. L. Rentz presiding.

Directors present were as follows: Fred L. Rentz, T. W. Dickey, James M. Smith, S. P. Emery, R. J. Tully, George T. Weingartner, J. K. Love, J. B. Foster, I. M. Ramsey, J. A. Appleton, and L. B. Round.

In addition to the board there were present: Quincy A. McBride, chairman of the New Industries Committee; U. M. Waite and J. K. Furst of the New Castle Paper Products Company.

An interesting and comprehensive report was received from Barton E. Richards of the committee delegated to make an effort to save Company A, 104th Pennsylvania Cavalry, from being transferred from New Castle. The matter of attempting to prevent this transfer from New Castle was thoroughly discussed and this committee consisting of George T. Weingartner, chairman; Barton E. Richards, and A. M. Bickett, was continued.

The meeting was then devoted to the discussion of the prospects of the New Castle Paper Products Company and it was developed that the outlook for future business is apparently very good.

The finances of the Chamber of Commerce were then discussed for a short time and the meeting was adjourned to reconvene as a special meeting, in the Elk's Club, at noon Wednesday, January 19, for the purpose of more thoroughly discussing the finance and program for the work to be taken up by the organization for the coming year.

Zinc and Copper Banish Rheumatism

Remarkable New Discovery Proving Boon to Thousands

McKenzie, Tenn.—Application for patent covering what is considered to be the most unique discovery of its kind has just been made by the Eureka Manufacturing Co., 264 Stonewall St., McKenzie, Tenn. After years of experiment they discovered that an especially constructed, chemically treated set of heel plates, one zinc and one copper, placed in the shoes of the sufferer will, by a scientific process, quickly rid the wearer of rheumatic pain, sciatica and stiff joints, as well as tone up the system in general. Experiments in hundreds of cases have proved this discovery to be a boon to all sufferers of the above ailments, especially as it eliminates the use of medicine which, in many instances, proves to be of only temporary value. They are anxious to prove their statements by sending any sufferer of rheumatism a special liberal trial offer. Write them today. —Adv.

How Can You Expect to be Well Without Healthy Kidneys?

—Hornick Studio

Johnstown, Pa.—"I had for years suffered with kidney and bladder troubles and in spite of everything I had taken, I grew worse. I felt resigned in the belief that my condition had become chronic. However, Dr. Pierce's Anuric Tablets came to me with such a strong recommendation that I thought best to try them. Before I had finished my first bottle I knew they were doing me good and had found the cause of my weakness, for I could sleep through the night undisturbed, where previously it was necessary for me to get up several times each night. I continued taking Anuric till now I have not the slightest trace of my former trouble. 'Anuric' is a wonderful remedy."—Mrs. J. D. Maudeville, 209 Porch Bldg.

Mexico Denies Kellogg's Charge

(International News Service)

MEXICO CITY, Jan. 14.—The Mexican government today continued its relentless pursuit of rebel forces, undeterred by the editorial attack in the newspaper Excellsior charging that a "reign of terror" exists and that both military and civil authorities are putting Mexicans to death without proper trial.

The government, according to the Excellsior, has denied its responsibility for alleged atrocity in Leon, where five young boys are alleged to have been summarily executed in "barbarous" fashion, one of the lads having his tongue cut out when he offered up a prayer to his Maker.

Excellsior's editorial attack declares that "respect for human life has disappeared completely in this country" and adds that "executions by shooting are the order of the day."

The newspaper declares that the Federal and State governments are responsible for these "atrocities" which will injure Mexico abroad.

Coincident with this attack some reports of further hangings on the roads outside of Mexico City, where it is said by travellers nearly a score of bodies now dangle as a warning to those who may plan to rise against the government.

Demands American Marines Be Drawn From Nicaragua

Dr. Sacasa, Rebellion Leader, Threatens To Enlist Aid

(International News Service)

MEXICO CITY, Jan. 14.—Immediate withdrawal of the American forces from Nicaragua, under threat of an appeal to the Spanish-American nations for military aid to repel the Yankee invasion, has been demanded by Dr. Juan Sacasa, leader of the Nicaraguan rebels, in a note to United States Secretary of State Frank B. Kellogg, according to a dispatch from Guatemala received here.

The Guatemala Dispatch states that it is based upon information received from the Sacasa headquarters.

Many of our troubles may begin with the stomach lining, as that doctor says, but many of them begin with the brake lining.
